MONTHLY REPORT #24

MAY 2024

NOTRUSTVERIFY.CH

Here is a summary of work done by No Trust Verify since our last report

03 MAY

We are delighted to announce our participation in Alephium's 1st Builder's Meetup, to be held in Athens from June 21 to 23. This exclusive event will feature workshops, presentations and discussions between Alephium builders, to encourage exchange and collaboration.

11 MAY

After a week of testing new contracts for Alph.bet on the Alephium test network to test the Rhône update, we are thoroughly impressed with the user experience and enhanced developer productivity that Rhône offers.

16 MAY

This year, No Trust Verify reiterates its support and is delighted to be one of the official sponsors to one of the most important bitcoin events

Taking place in the town of La Chaux-de-Fonds, this event is a unique opportunity for Swiss bitcoin professionals and players to meet interested parties and exchange ideas.

If you're in the area, save the date and join us!

https://leparadigmebitcoin.ch/home

17 MAY

We've published an article on one of the new features that will come with the next Rhône upgrade on Alephium and how we have refactored Alph.bet smart contract code to use mapping.

Check it out and stay tuned for more updates on the Rhône upgrade!

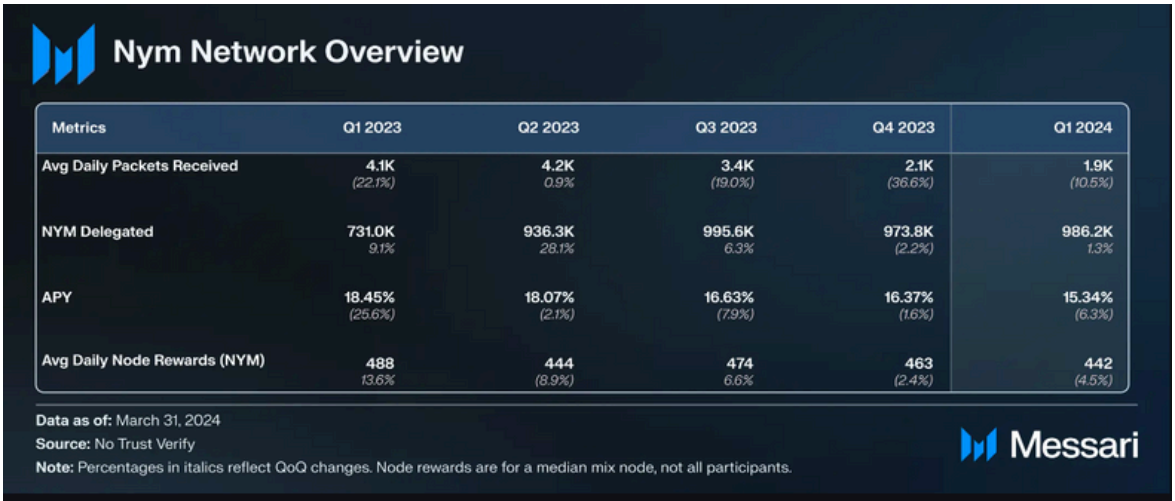
22 MAY

No Trust Verify was cited as a legitimate source of information by Messari in his last article about Nym.

You can consult it here: https://messari.io/report/state-of-nym-q1-2024

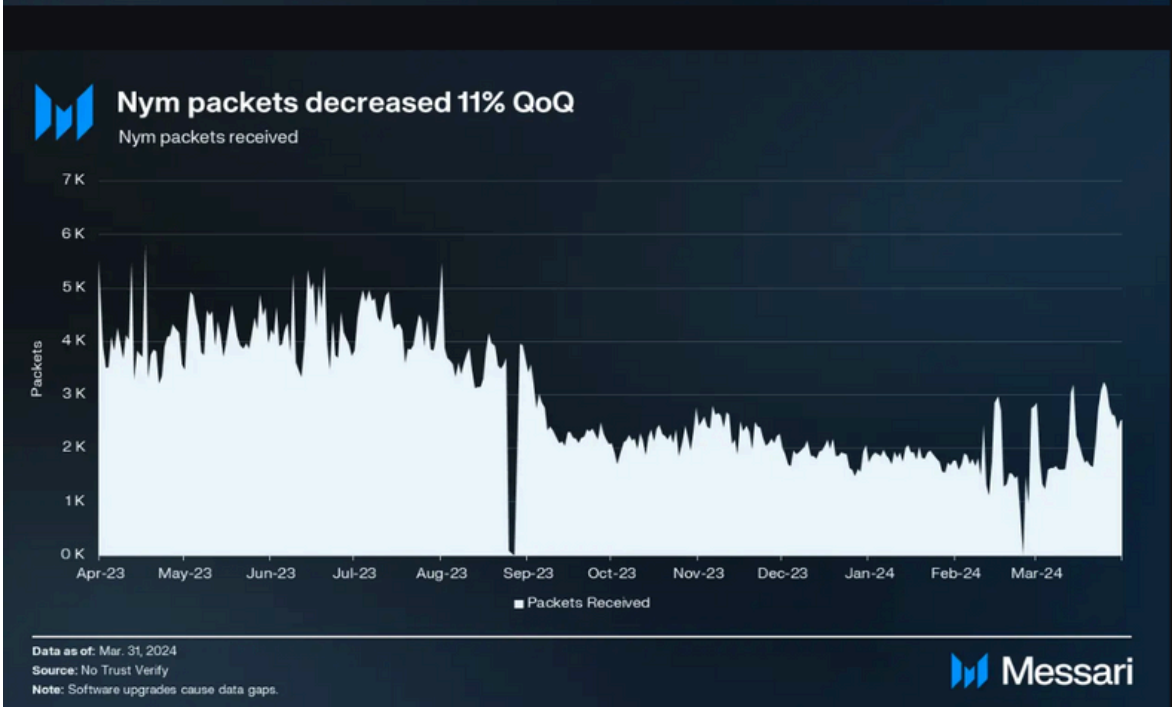


Nym Network Overview

Metrics	Q1 2023	Q2 2023	Q3 2023	Q4 2023	Q1 2024
Avg Daily Packets Received	4.1K (22.1%)	4.2K 0.9%	3.4K (19.0%)	2.1K (36.6%)	1.9K (10.5%)
NYM Delegated	731.0K 9.1%	936.3K 28.1%	995.6K 6.3%	973.8K (2.2%)	986.2K 1.3%
APY	18.45% (25.6%)	18.07% (2.1%)	16.63% (7.9%)	16.37% (1.6%)	15.34% (6.3%)
Avg Daily Node Rewards (NYM)	488 13.6%	444 (8.9%)	474 6.6%	463 (2.4%)	442 (4.5%)

Data as of: March 31, 2024
Source: No Trust Verify
Note: Percentages in italics reflect QoQ changes. Node rewards are for a median mix node, not all participants.

Messari



24 MAY

TipAlph, our tipping bot for Alephium, has now surpassed 300 users! To celebrate, check out our latest article detailing the development process behind TipAlph.

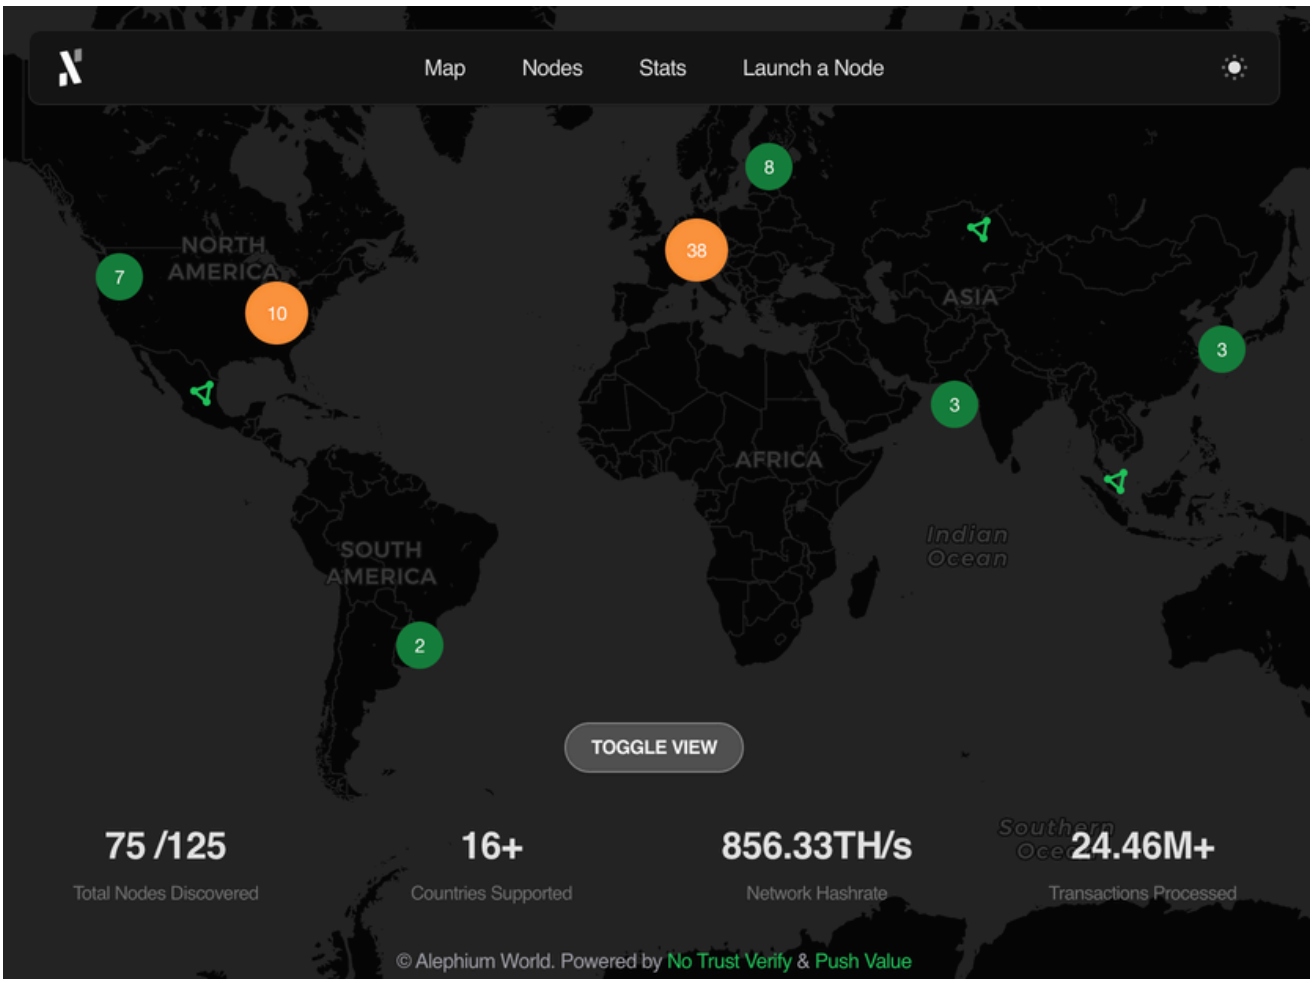
https://blog.notrustverify.ch/tipalph-a-tipping-bot-for-alephium

28 MAY

Announcing http://alephium.world/ ! This project is a successful collaboration between No Trust Verify and PushValue.

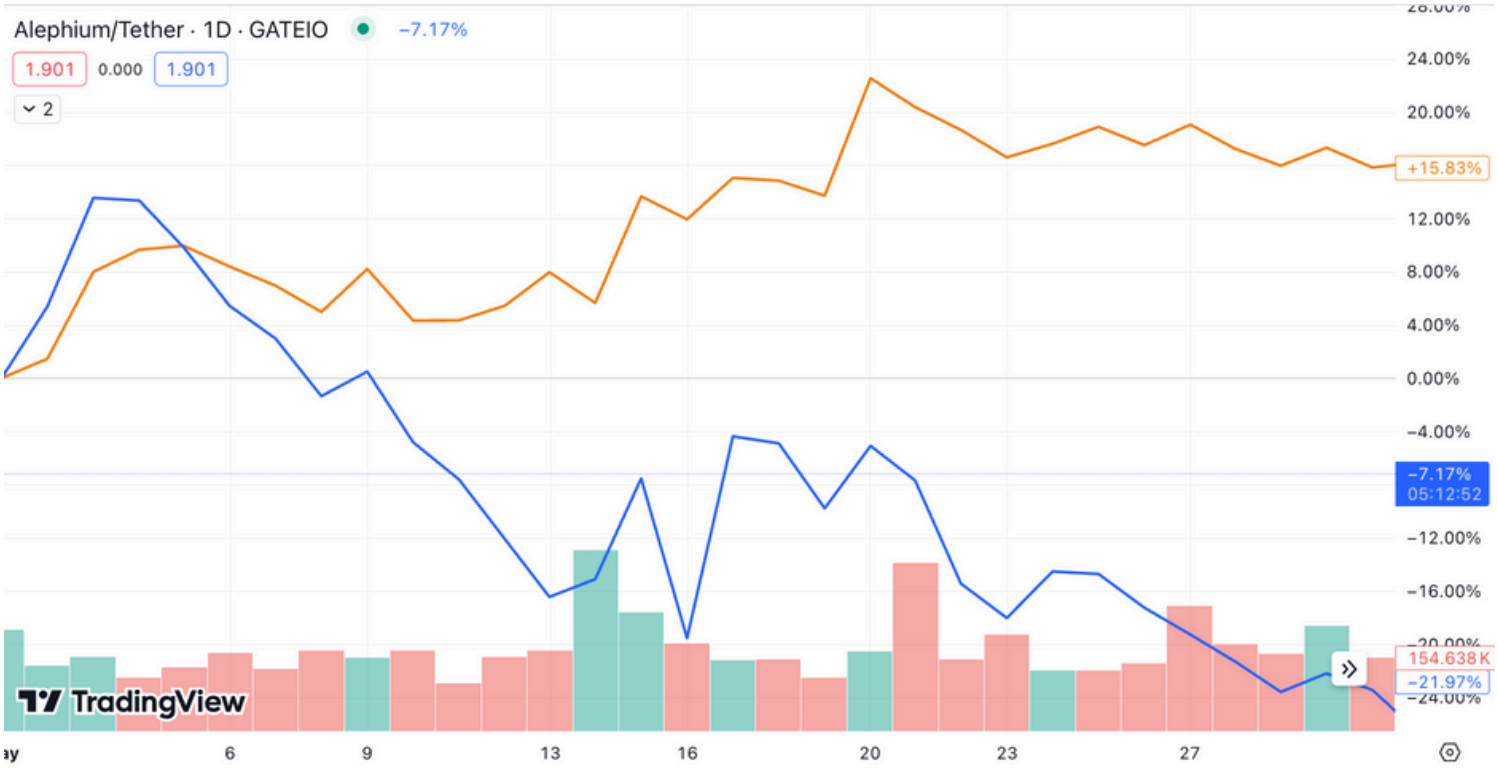
The goal is to show expansion of Alephium by showcasing fullnodes on a map. Operating a fullnode is a voluntary act, but essential for the development of a blockchain. It is totally altruistic (like on Bitcoin)! Everyone who want to support Alephium should operate one, especially since it requires few resources.

If you want to operate your own fullnode, we invite you to read the documentation : https://docs.alephium.org/full-node/getting-started/

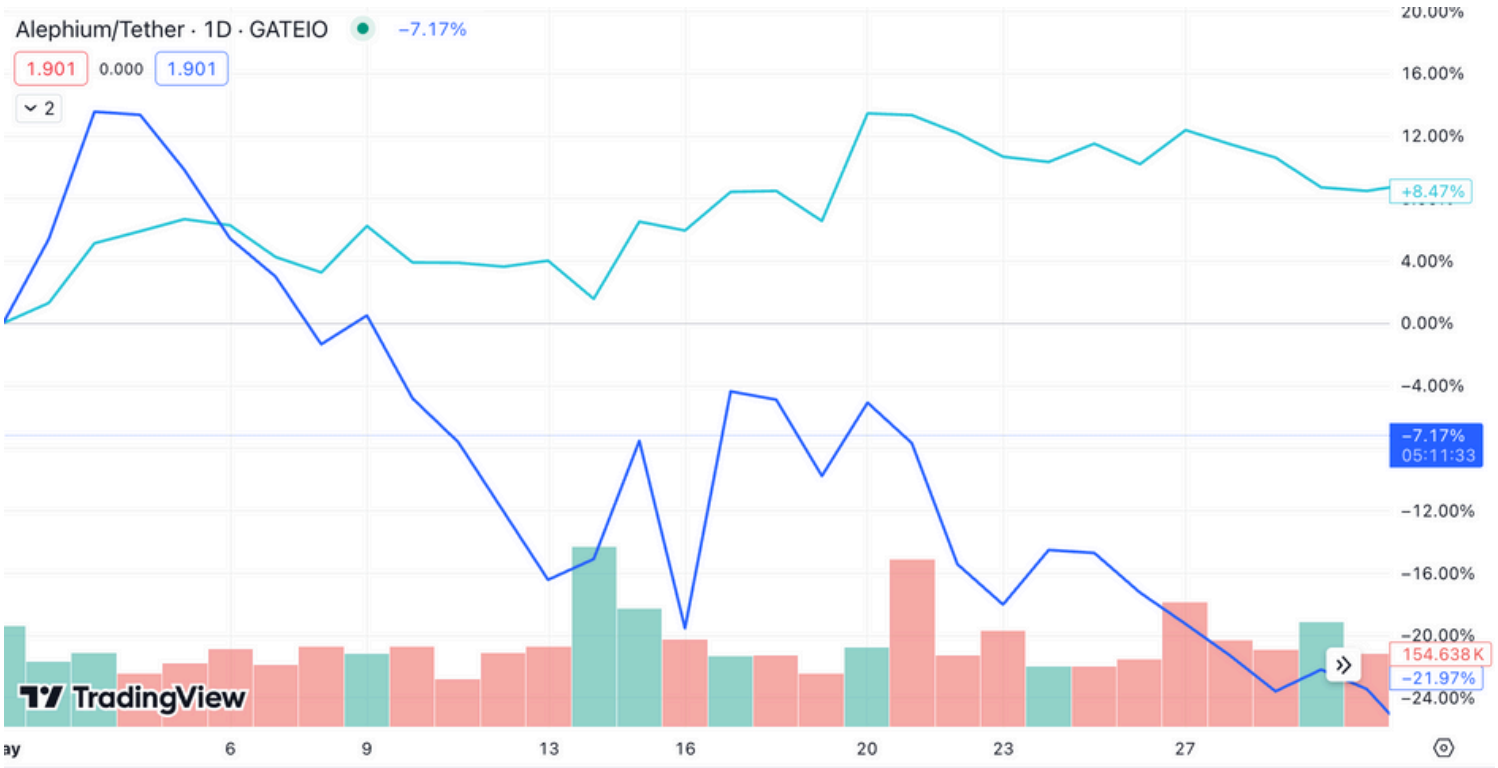


ALEPHIUM METRICS

On the following page, you'll find some charts relating to Alephium. To begin with, here is an evolution of the price of $ALPH with a comparison to $BTC, over the month of May.

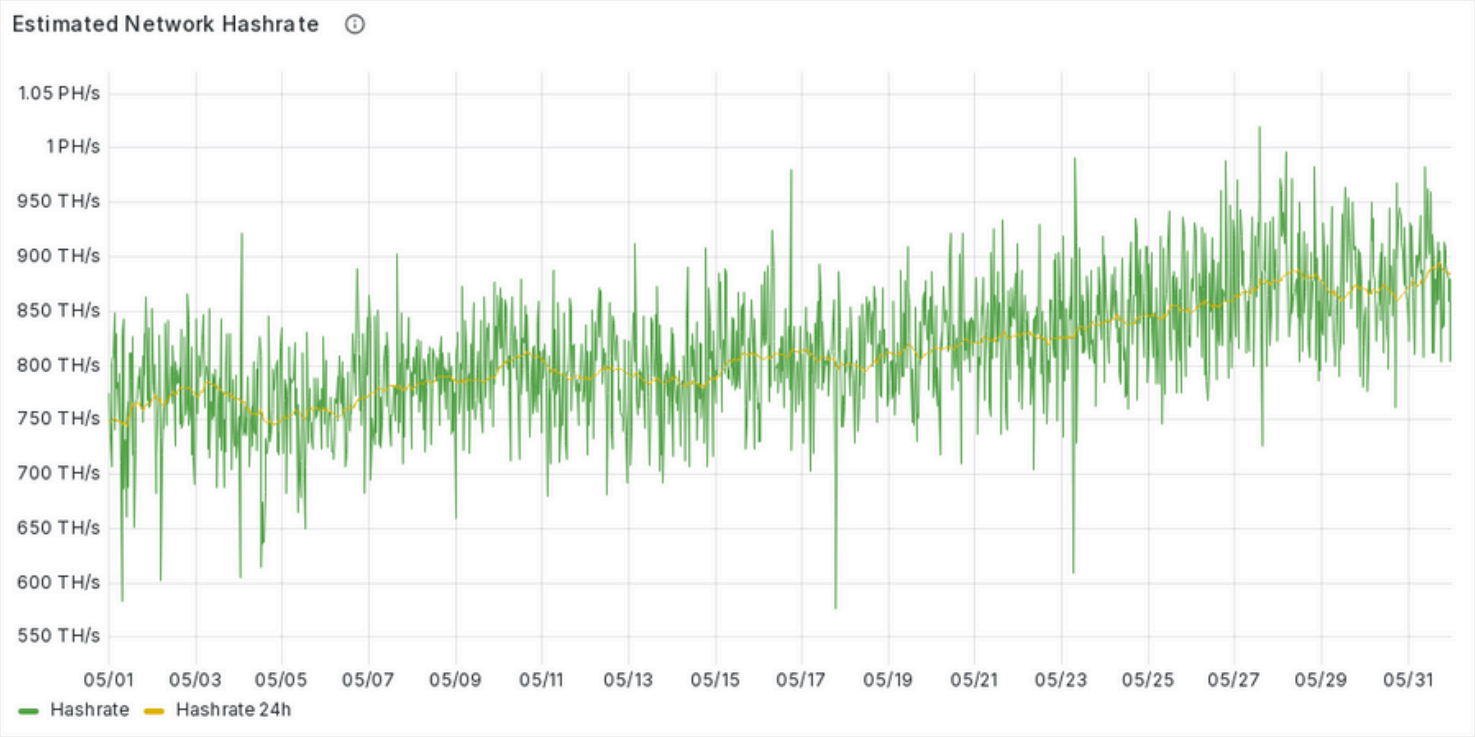


Another comparison between $ALPH vs TOTAL3 (all altcoins excluding $BTC and $ETH)



ALEPHIUM METRICS

This section illustrates the progression of the hashrate. It is still progressing.



Here's the evolution of the total number of wallets.
