

MONTHLY REPORT #6

FROM OCTOBER 15 TO NOVEMBER 20, 2022

[NYM.NOTRUSTVERIFY.CH](https://nym.notrustverify.ch)

Here is a summary of the different work done by No Trust Verify.

25 OCTOBER

Publication of our fifth activity report.

31 OCTOBER

Implementation of auto-compound on NTV mixnodes.

01 NOVEMBER

Publication of our article ([English](#) & [French](#)) on our application <https://pastenym.ch/#/> allowing to use the mixnet and to exchange information with a service that protects your metadata and data

08 NOVEMBER

French translation of the article "A simple introduction to mixnets" by Dave Hrycyszyn.

14 NOVEMBER

Update of pastenym.ch: is now possible to fetch paste from the homepage without sending data to the webserver.

16 NOVEMBER

Publication of [our article](#) presenting pastenym in Chinese.

17 NOVEMBER

Telegram proxy update

20 NOVEMBER

Update of pastenym.ch: Implementation of client-side encryption

Important information. Please note the following points.

The last updates on the Nym network have been completed. As a reminder, in addition to the auto-compound, this update increases the maximum saturation stake of all mixnodes from 420k NYM to 730k NYM.

In order to maintain a maximum yield we will first ask you to remove your NYM from mixnodes NTV2 and NTV3 and delegate them to NTV1 :

APxUbCmGp4K9qDzvwVADJFNu8S3JV1AJBw7q6bS5KN9E

By the end of November, NTV3 will be temporarily stopped until further notice. We will evaluate the situation for NTV2.

Please, don't forget to move your NYM to NTV1

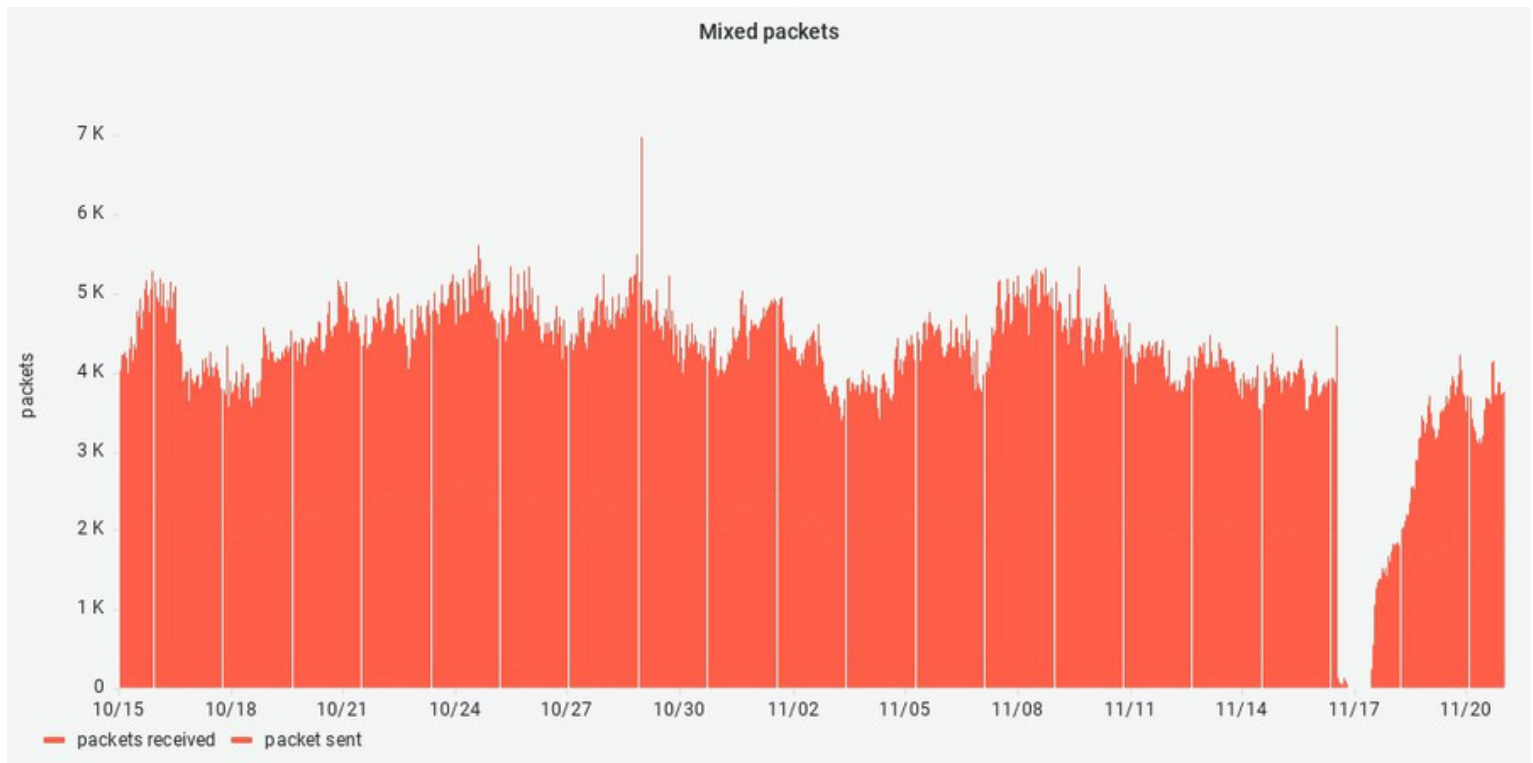

The latest version of the Nym wallet 1.1.0 is released. If you haven't already done so, don't forget to update your version.

METRICS

Below are our various metrics for the period October 15 to November 20, 2022. For this period, we received approximately 1,351.324 billion packets to process on our three mixnodes.

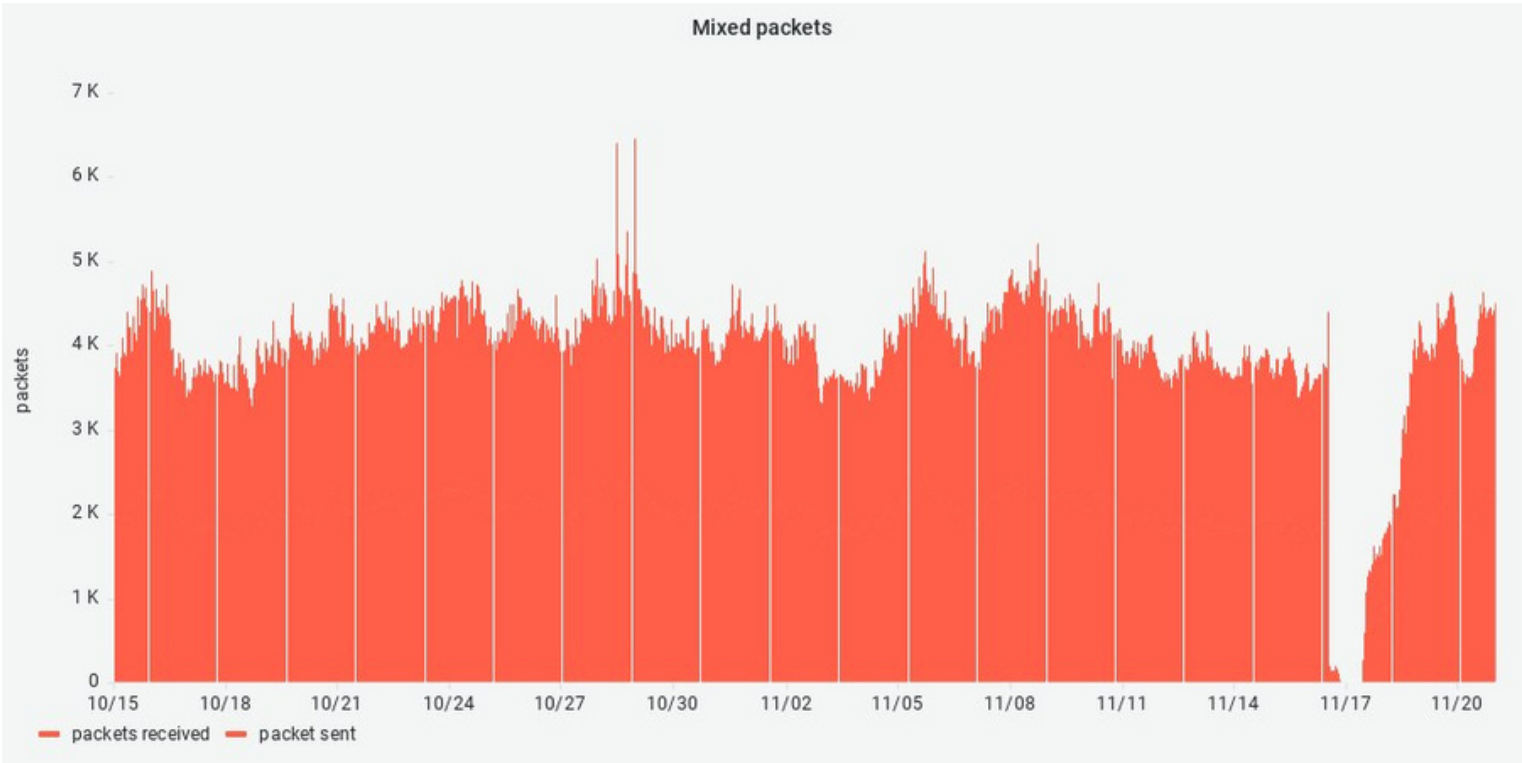

Nearly 262.429 millions packages on the NTV1 mixnode

And nearly 571.732 millions packets on the NTV2 mixnode

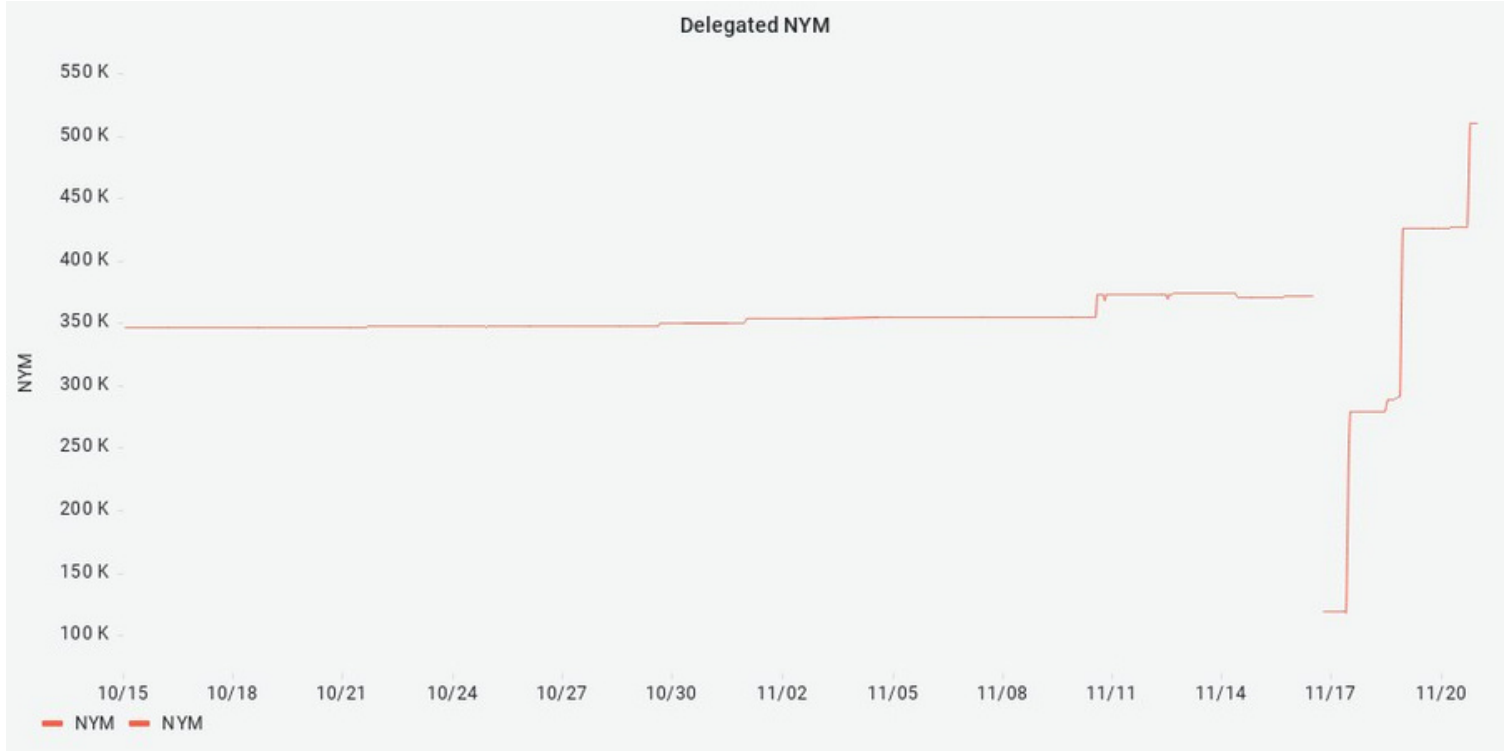

Nearly 517.163 millions packages on the NTV3 mixnode

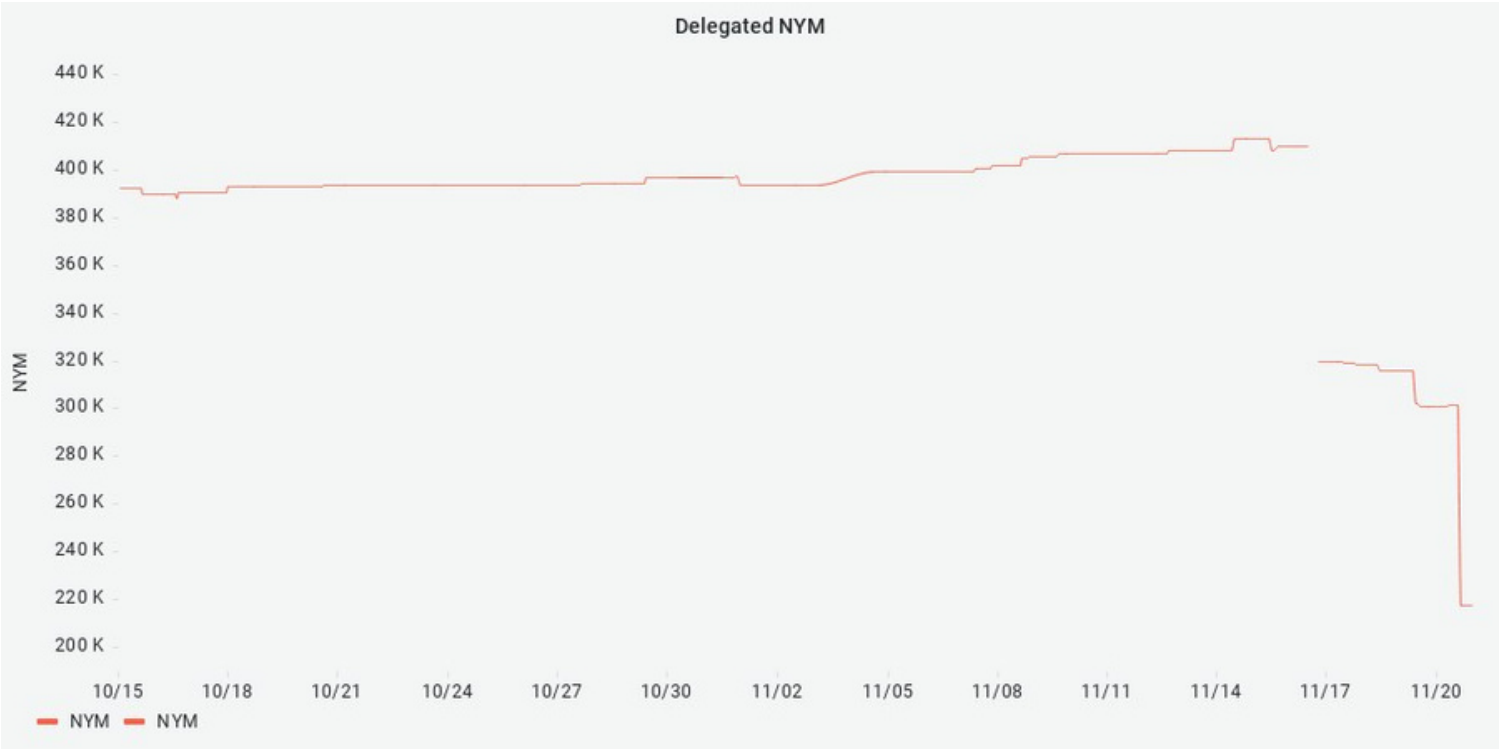

You will find below our different measures for the period from October 15 to November 20, 2022 concerning the delegations made on our mixnodes. The variations are due to the latest updates of the Nym network, and the ongoing migration to NTV1.

NTV1

NTV2

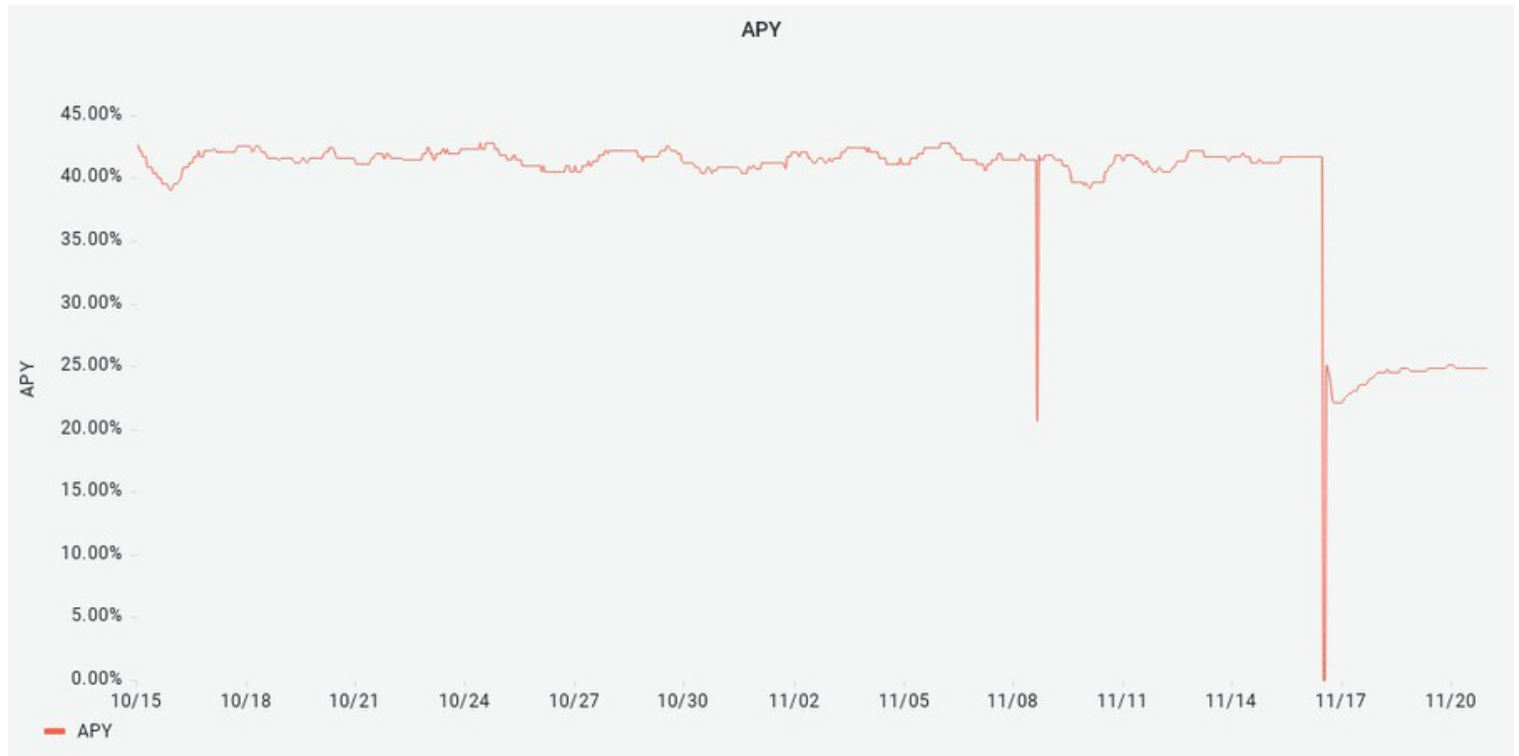

NTV3

METRICS

Below are the statistics for **APY** for NTV1 & NTV2 & NTV3. You will notice that following the last updates of the network. The APY of all mixnodes operators has decreased, so in order to maximize it, we ask you to migrate your delegations on NTV1.
