

MONTHLY REPORT #29

OCTOBER 2024

NOTRUSTVERIFY.CH

Here is a summary of work done by No Trust Verify since our last report

03 -05 OCTOBER

We have continued our work on our dApp, Yodh.app, and have introduced the following features:

- Listing on Alph.Land
- Added support for custom withdrawal secrets
- Revamped the PDF gift card design
- Integrated Alephium contract explorer link
- Updated to the new Yodh logo
- Oracle Integration

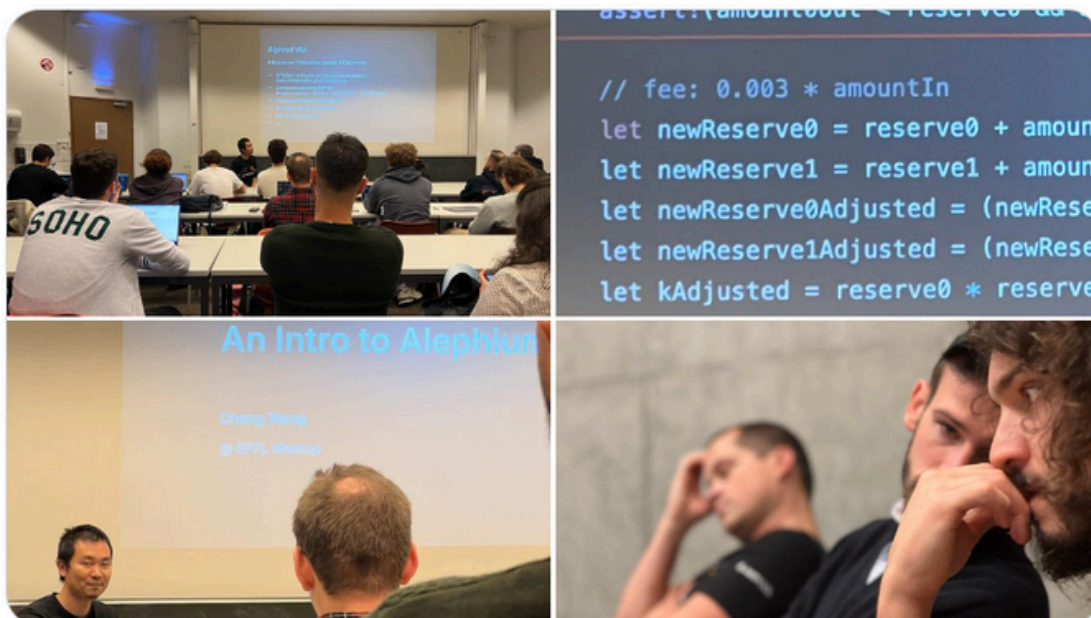

15 OCTOBER

Following our participation in Hackathon #1.5 - Why So Serious?, we were honored to win the 3rd place for the Yodh.app project. We would like to thank everyone who supported us, as well as the projects that have already started using Yodh.

We will continue to work on and improve it, so please feel free to test it out and share your suggestions with us.

17 OCTOBER

We had the opportunity to attend ton “An Intro to Alephium” presented by Cheng Wang at the Computer Science Department of EPFL

24 -25 OCTOBER

We participated in the Plan B Forum event in Lugano, the largest conference in Europe on topics related to digital currencies, P2P technologies, and their impact on the environment, financial freedom, and freedom of expression.

25 OCTOBER

In our latest article, we explore sms4sats, an innovative service that uses the Lightning Network to provide temporary phone numbers, allowing users to securely send and receive text messages.

You can find it here: <https://blog.notrustverify.ch/sm4sats>

26 OCTOBER

Integrating the Alephium fullnode WebSocket into [@AlphWhale](#) for faster, more efficient block analysis.

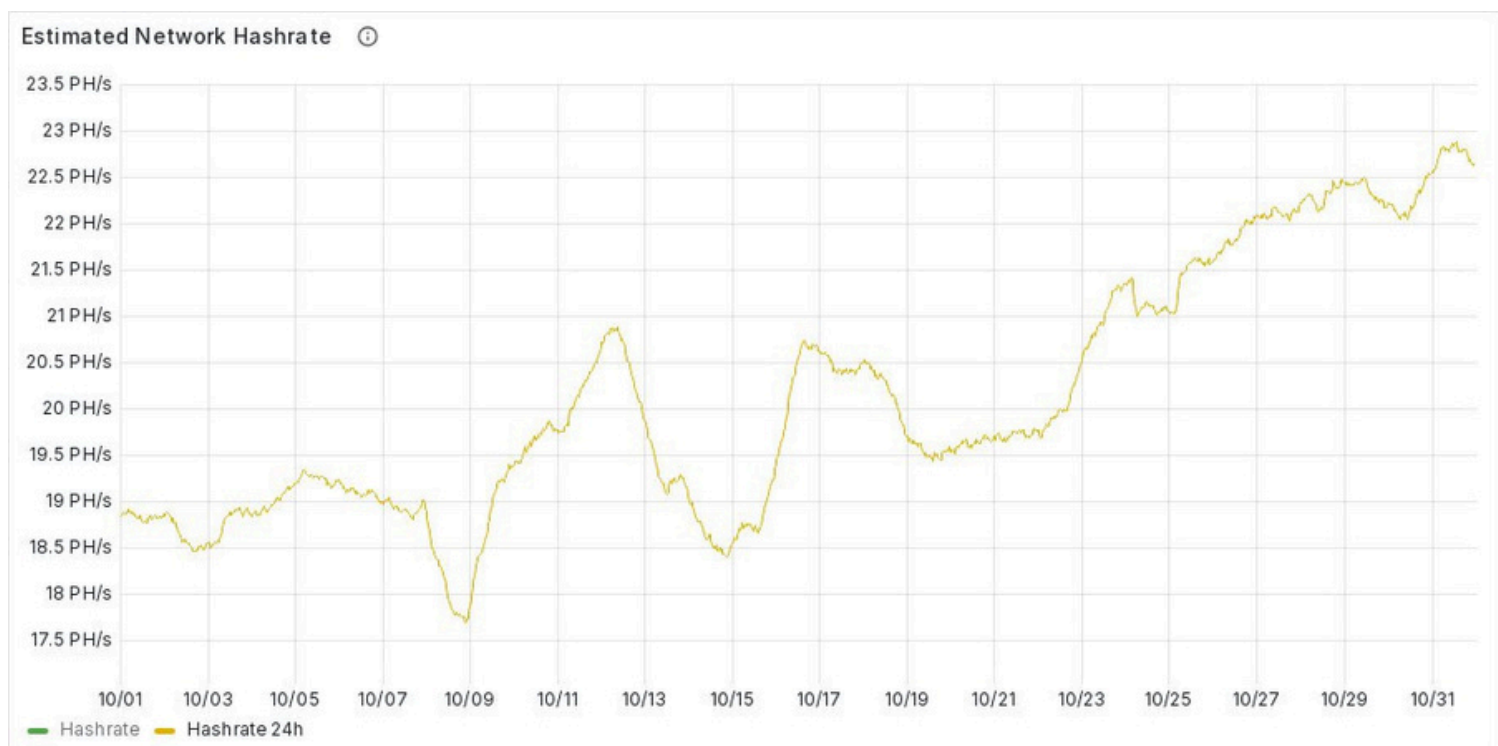

ALEPHIUM METRICS

On the following page, you'll find some charts relating to Alephium. To begin with, here is an evolution of the price of \$ALPH with a comparison to \$BTC, over the month of October.

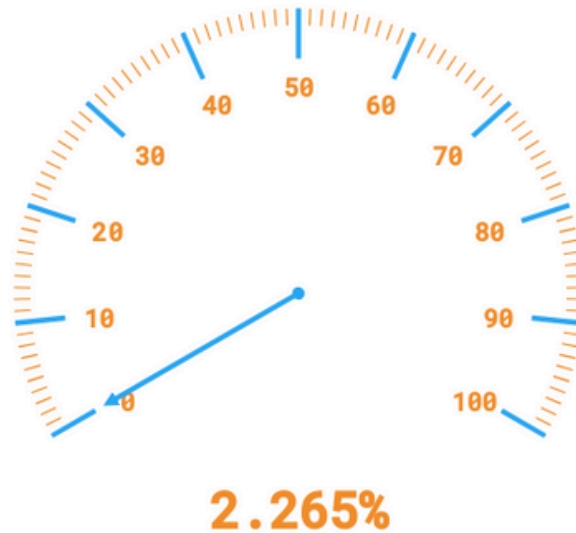

This section illustrates the evolution of the hashrate. We are still in a phase of continuous growth.

ALEPHIUM METRICS

Approximately **260 ALPH** were burned in October.

PoLW activation progress

Here's the evolution of the total number of active addresses.
