Dear Delegators,

The entire No Trust Verify team would like to thank you from the bottom of our hearts for your unwavering support since we launched the project in May. Thanks to your trust and delegations we have been able to continue building with No Trust Verify and continue providing you with the best services. We are deeply grateful for your contribution to our success and we hope to continue on your support in the future.

This will be the last report of the year 2022, so we would like to take this opportunity to wish you all a very happy holiday season and all the best for the year 2023.

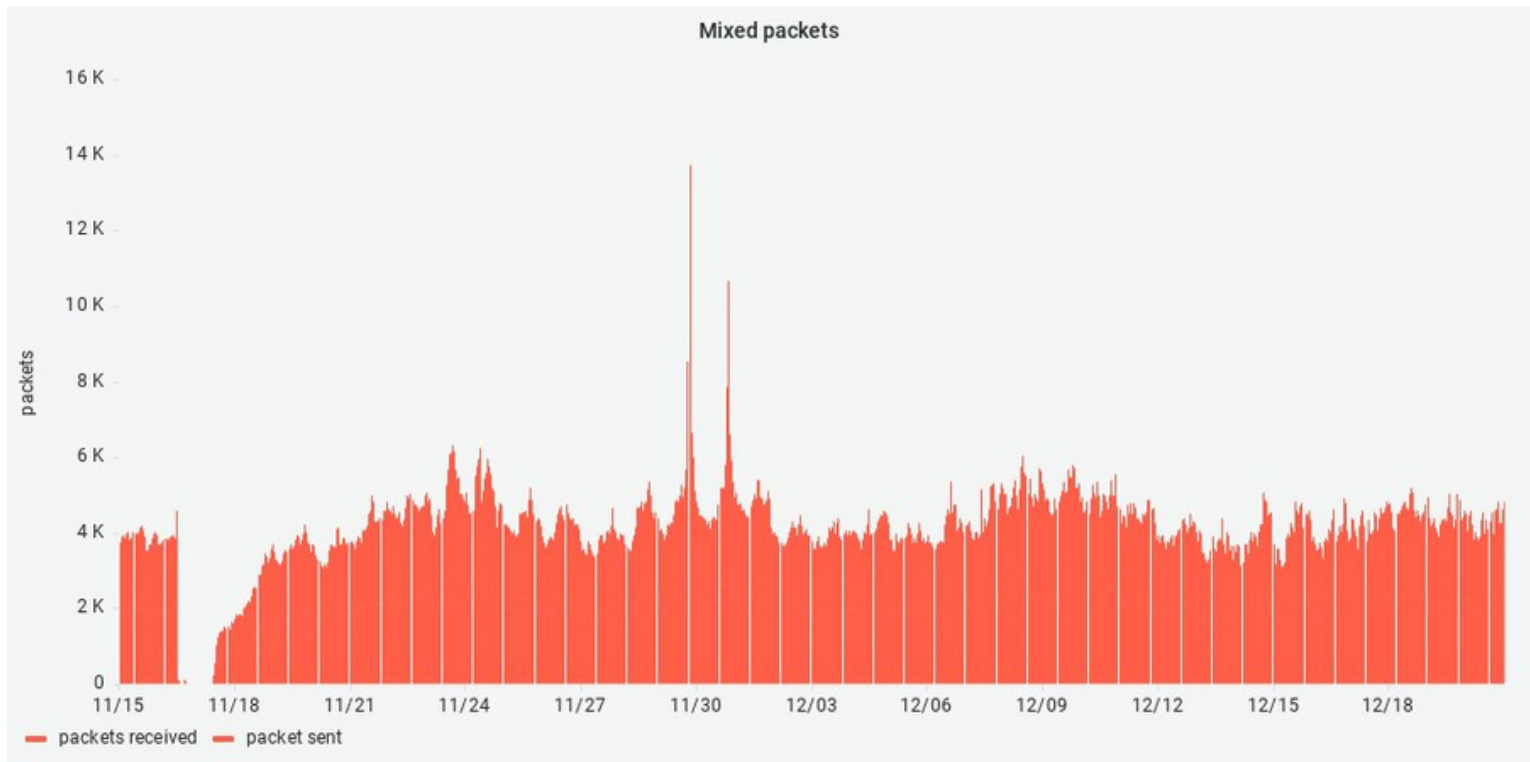

We are already motivated and excited to continue building on Nym. 🛠️

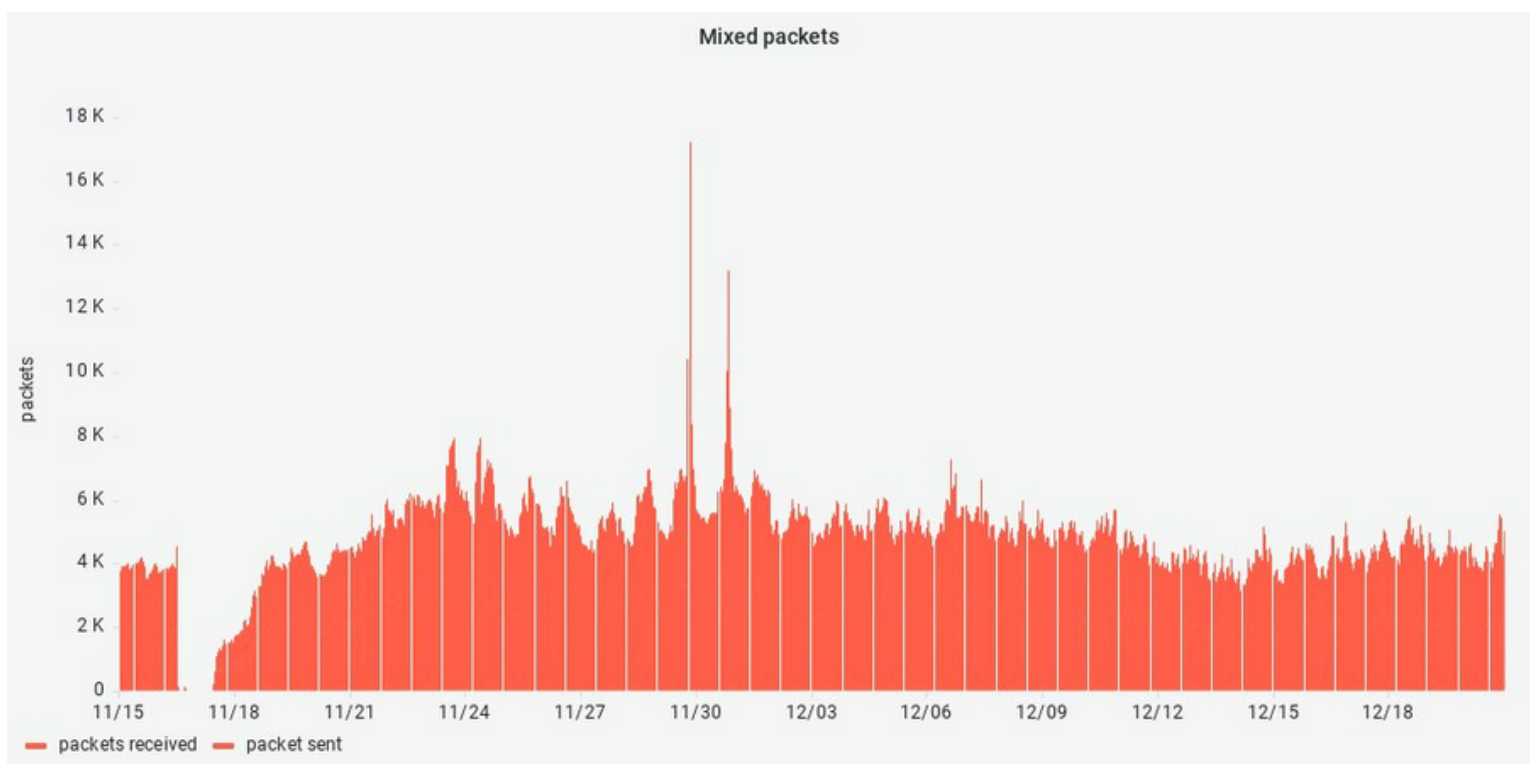

METRICS

Below are our various metrics for the period November 15 to December 20, 2022. For this period, we received approximately **123.756 million packets** to process on our two mixnodes.

Nearly 57.339 millions packages on the NTV1 mixnode

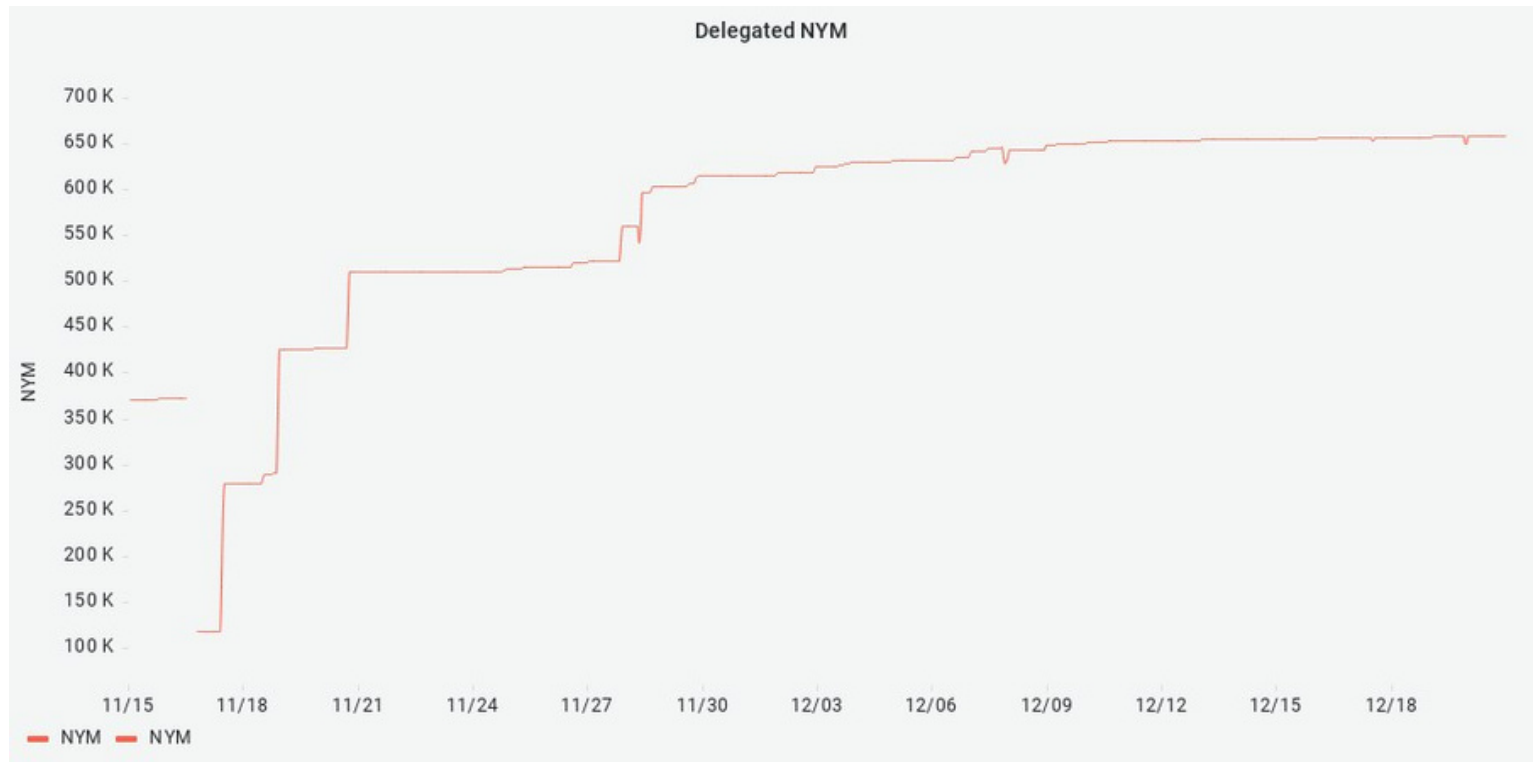

And nearly 66.417 millions packets on the NTV2 mixnode

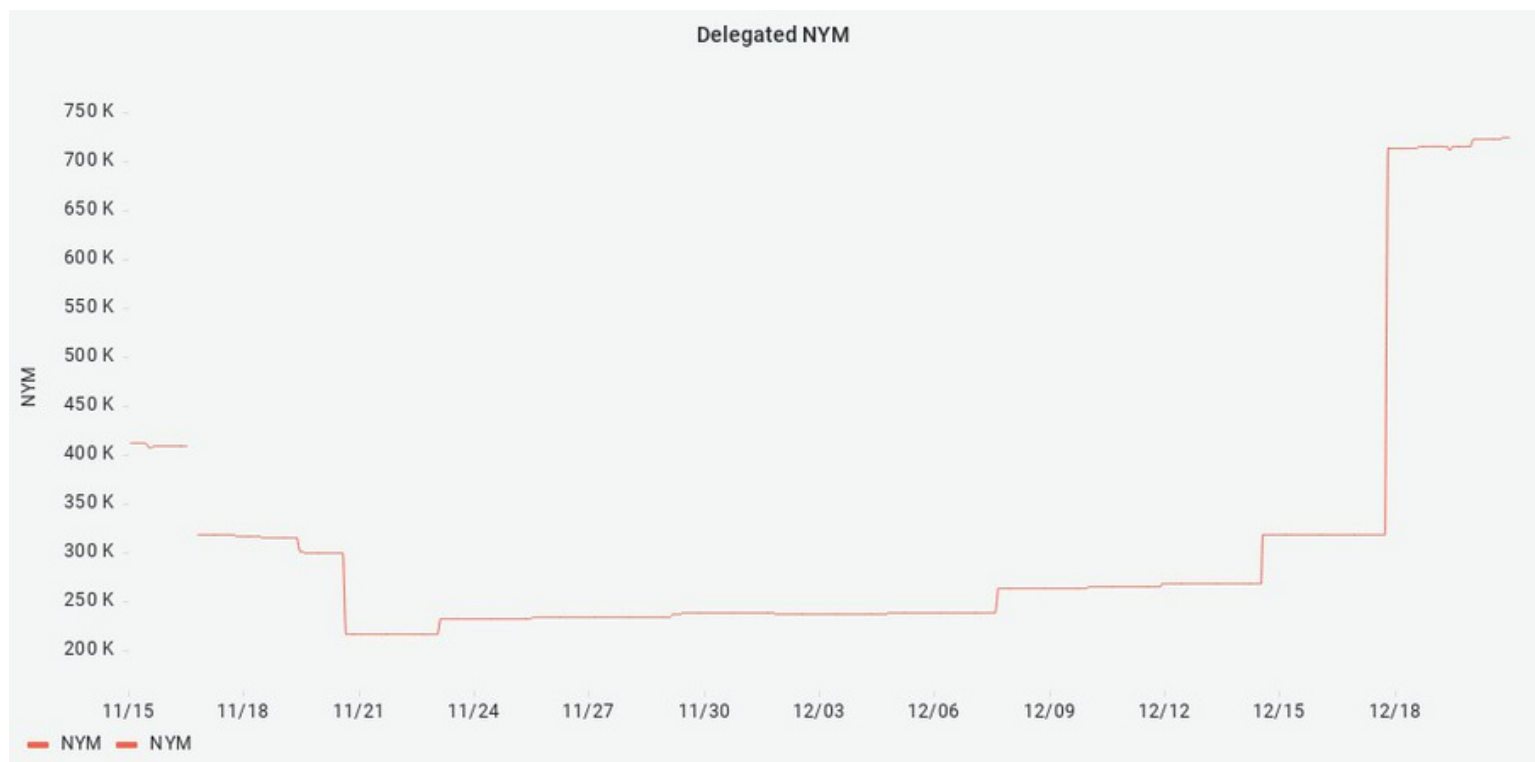

METRICS

You will find below our different measures for the period from November 15 to December 20, 2022 concerning the delegations made on our mixnodes. The increase in total delegates is due to the migration of NYMs from NTV3 which has been closed.

NTV1

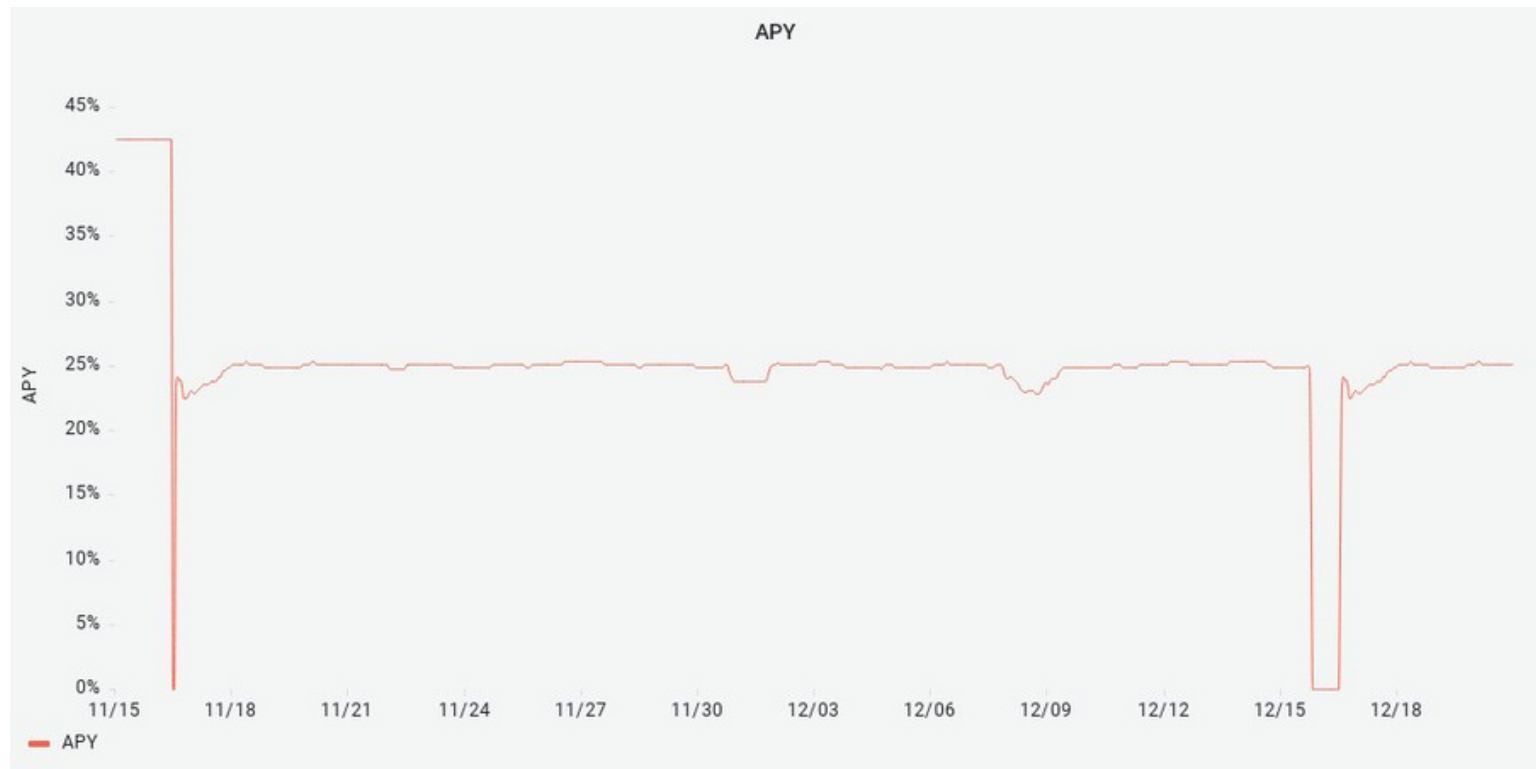

NTV2

METRICS

Below are the statistics for APY for NTV1 & NTV2 . Currently, the APY rate is around 25%.The drop in the APY was due to a problem at Nym but had no impact on the rewards.
