NOVEMBER 2023

NOTRUSTVERIFY.CH

---

Here is a summary of work done by No Trust Verify since our last report

## 03 NOVEMBER

We published an article diving into virtual SMS services and found out how to access sms4sats.com, a virtual SMS service using the Lightning Network, via NymConnect.

You can read it here.

## 08 NOVEMBER

Pastenym, the native application operating within the Nym's mixnet, is back, offering a secure platform for individuals to send files and text while safeguarding their privacy.

Visit Pastenym at : <https://pastenym.ch>

The entire No Trust Verify team extends its heartfelt gratitude to the Nym development team for their invaluable support.

## 08 NOVEMBER

As part of Nym's Shipyard Itinerary event. No Trust Verify took part in a presentation on application development within the Nym ecosystem and how to build on it. You can find a youtube [replay here](#).

## 09 NOVEMBER

After months of hard work, intense testing and much operational/legal consideration and effort, Alephium's core contributors are very proud to announce that the bridge is live on the mainnet! No Trust Verify is happy to contribute to the security of this one as guardians.

[More details and links here.](#)

## 17 NOVEMBER

We are pleased to announce that Walph.io, our decentralized lottery built on Alephium is now live on the Flux Web3 Cloud!

Check out at <https://walph.app.runonflux.io>

**NEW DApp**

 Walph

**WALPH is live on FLUX**

Walph is an exciting decentralized luck-based gamed running on Alephium Blockchain, offering transparent fair and secure draw. In this game, you can participate in various pools, known as "Walphs", for a chance to win tokens.

## NYM METRICS

On the following pages, you'll find some of the most important metrics of the NYM network.

To begin with, here is an evolution of the price of \$NYM with a comparison to \$BTC, over the month of November.

NYM is part of the Cosmos ecosystem. We check \$NYM performance against \$ATOM, the ecosystem native token.

## NYM METRICS

Packet processing trends for the entire mixnet. This month, the number of packets transmitted is down on the previous month.

Total Number of packets

Conversely, the number of mixnodes rose sharply in November. This is certainly due to the new operators who were able to familiarize and train themselves at the Shypiard event.

Total Number of mixnodes

## NYM METRICS

This section shows the evolution of the total number of gateways.

Evolution of stake saturation.

For more details about the metrics related to the Nym Mixnet, do not hesitate to consult our grafana:
