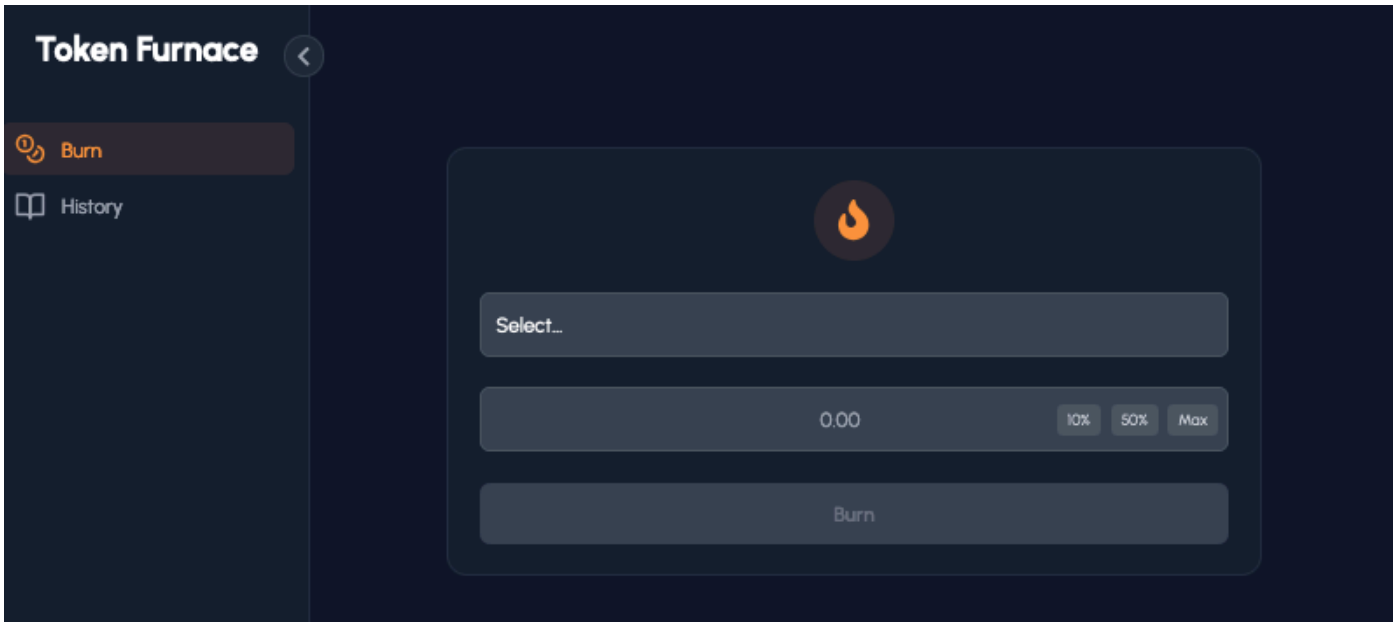
MONTHLY REPORT #32

JANUARY 2025

NOTRUSTVERIFY.CH

5 JANUARY

We had a new frontend update for the TokenFurnace DApp on Alephium. A big thanks to @OverGDev for his contribution and this slick interface.



6 JANUARY

Proof of Burn is now live on TokenFurnace! You can now easily create NFTs that serve as verifiable proof of burned tokens.

Here is a summary of work done by No Trust Verify since our last report

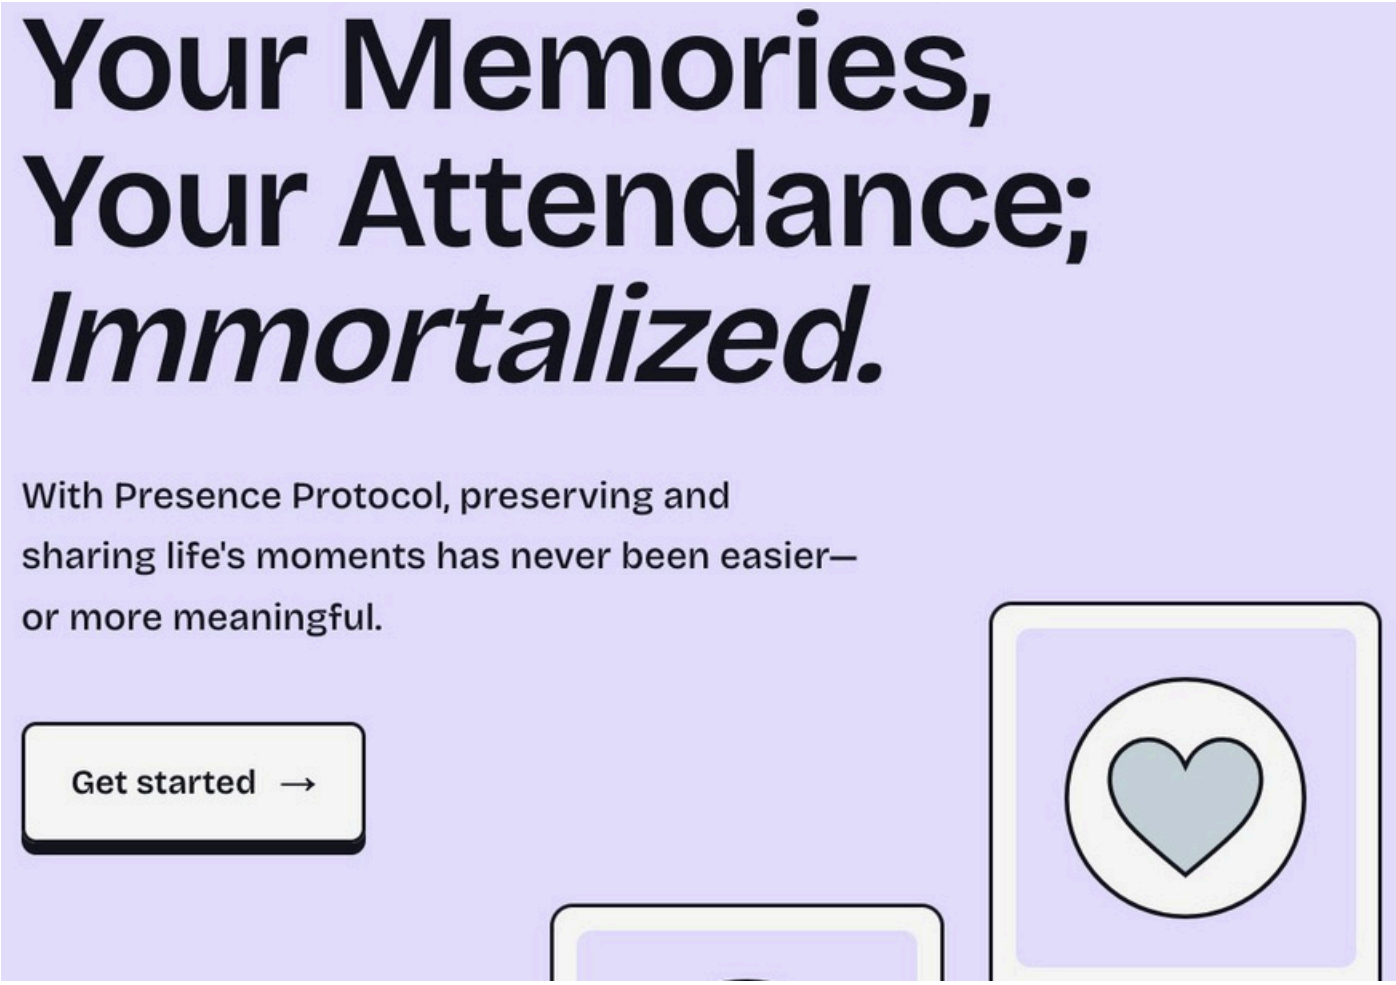
17 JANUARY

We made a new article in our "Building On Alephium" series, where we present how we developed the decentralized application "TokenFurnace" on Alephium.

You can check it out here: www.blog.notrustverify.ch/tokenfurnace

25 JANUARY

In collaboration with @pushvalue, we're preparing an exciting new dApp.
Stay tuned!

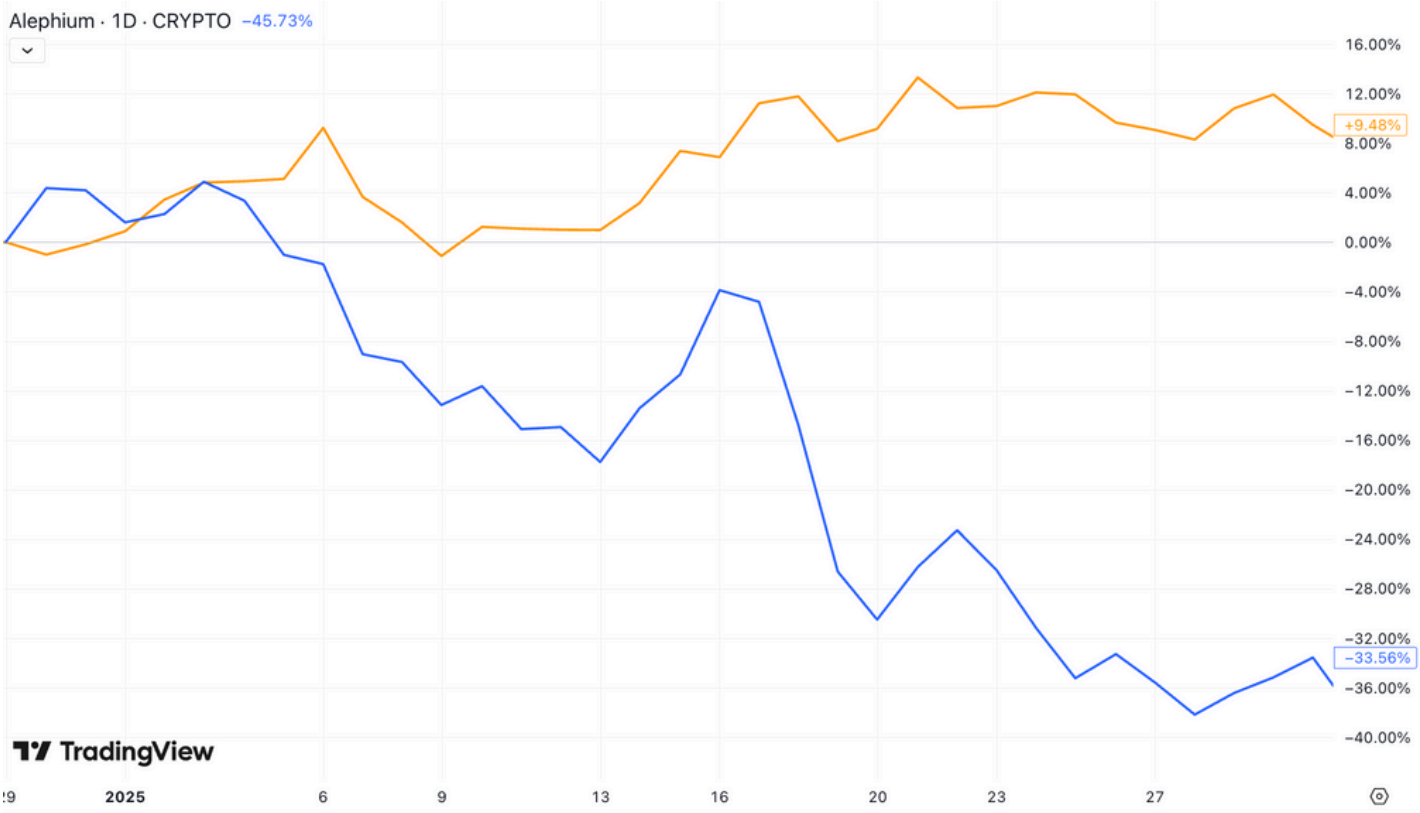


31 JANUARY

The CryptoXR event, in which we are participating, has officially started. More information will be shared in the next report.

ALEPHIUM METRICS

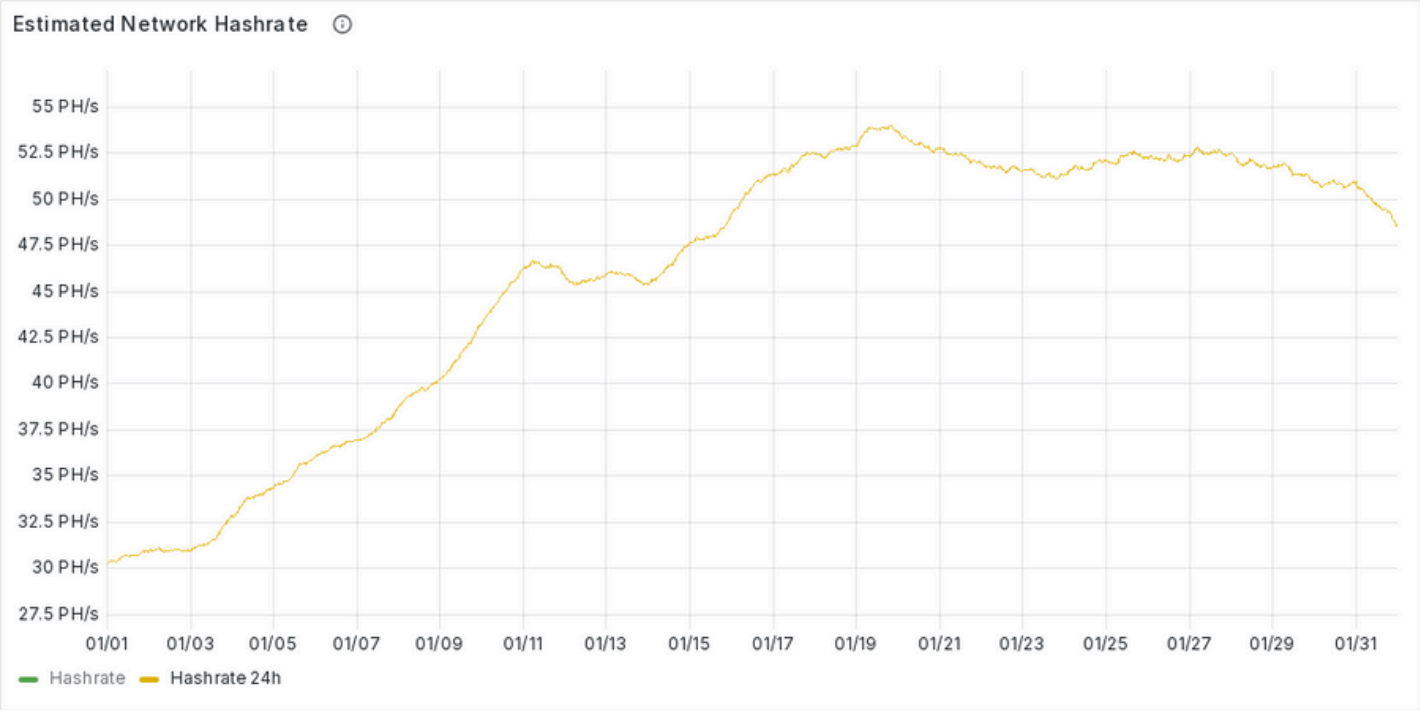
On the following page, you'll find some charts relating to Alephium. To begin with, here is an evolution of the price of $ALPH with a comparison to $BTC, over the month of January.



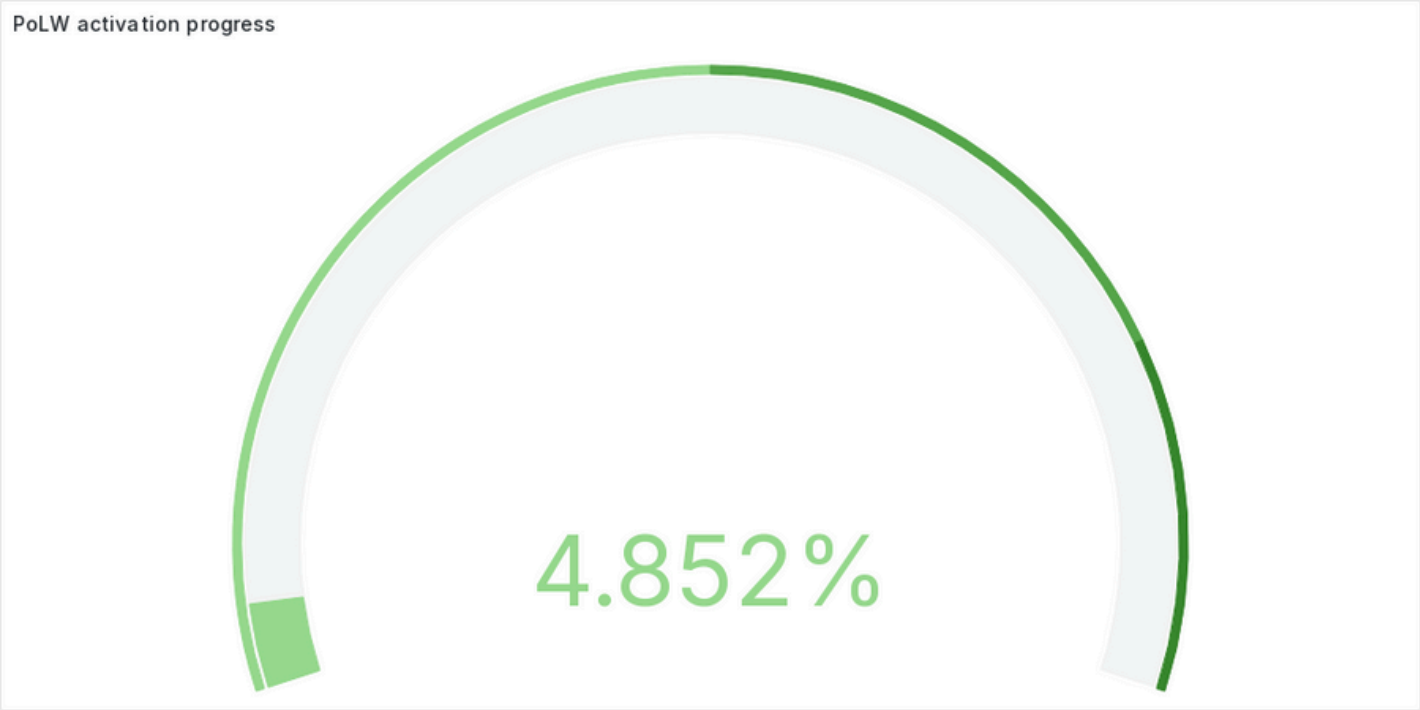
Another comparison between $ALPH vs TOTAL3 (all altcoins excluding $BTC and $ETH)

ALEPHIUM METRICS

This section illustrates the evolution of the hashrate. We are still in a phase of important growth, with a **60.07% increase**



In terms of PoLW activation progression, approximately **272 ALPH** were burned in January.

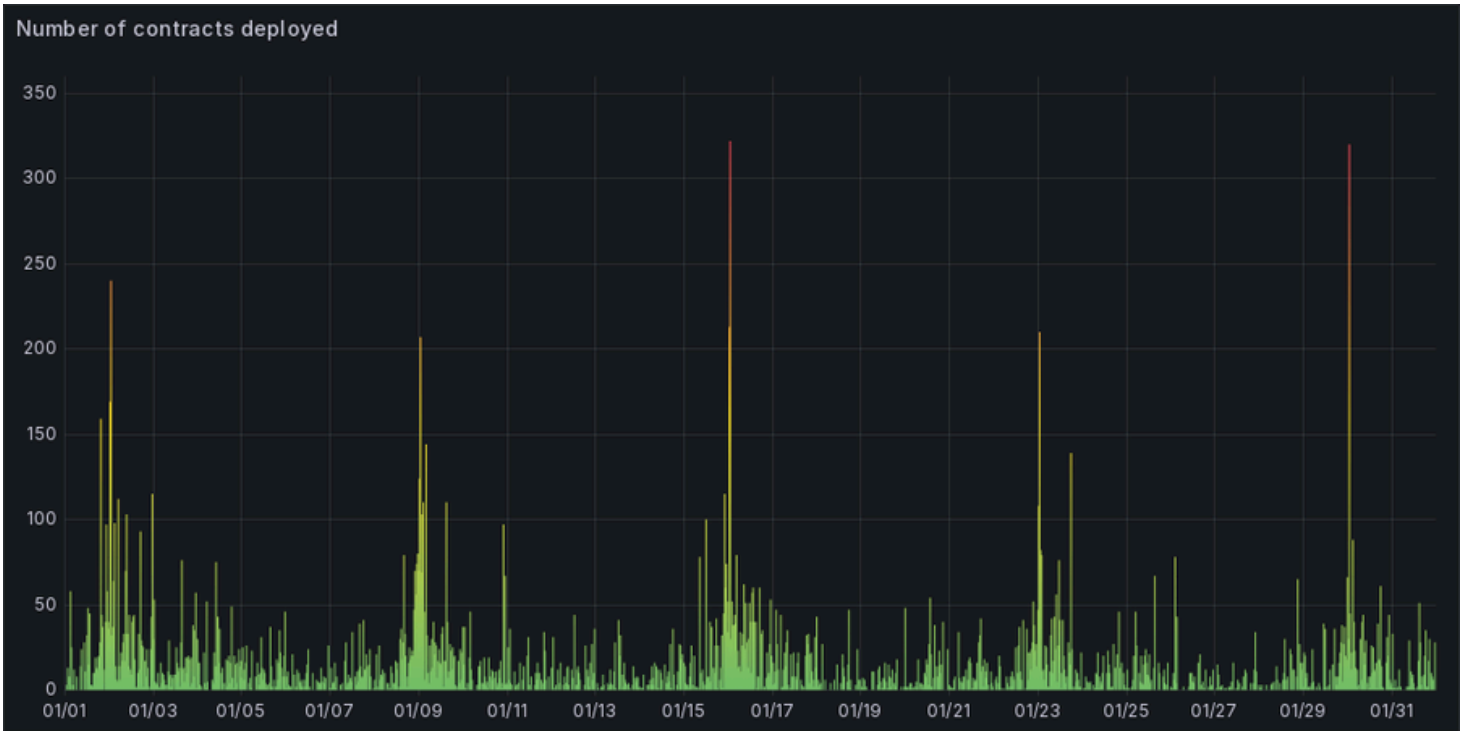


ALEPHIUM METRICS

Here's the evolution of the total number of active addresses.

Source : https://richlist.alephium.world/

Over the month, the network processed approximately **346k transactions** and nearly **20.2k contracts** were deployed.



The No Trust Verify team would like to thank you for your trust and remains at your disposal for any further information.
