

MONTHLY REPORT #2

FROM JUNE 15 TO 20 JULY, 2022

[NYM.NOTRUSTVERIFY.CH](https://nym.notrustverify.ch)

Here is a summary of the different work done by No Trust Verify.

21 JUNE

Publication of our first activity report

24 JUNE

Participation in the event "Le Paradigme Bitcoin" in Neuchâtel

25 JUNE

Creation of our Twitter page

25 JUNE

Migration of the gateway to a Swiss datacenter.

02 JULY

The mixnode NVT1 has reached the stake saturation of NYM delegations!

Launch of our second mixnode NTV2

08 JULY

Participation in the Nym community call, as well as in the first French community call.

Upcoming work and events on No Trust Verify

-Showcase application connected to the Nym

-Implementation of the reward calculator on the website

Important information. Please note the following points.

Currently, there seems to be a bug in the smart contract for rewards.

If you perform one of the following actions claim or compound, it may happen that afterwards your new rewards are not displayed anymore. To remedy this, you need to do an undelegate / delegate after either of these actions, so that the new rewards are displayed again.

It is best to use only undelegate and then delegate to put your accumulated rewards back

The Nym team is aware of the problem and will fix it by the next updates.

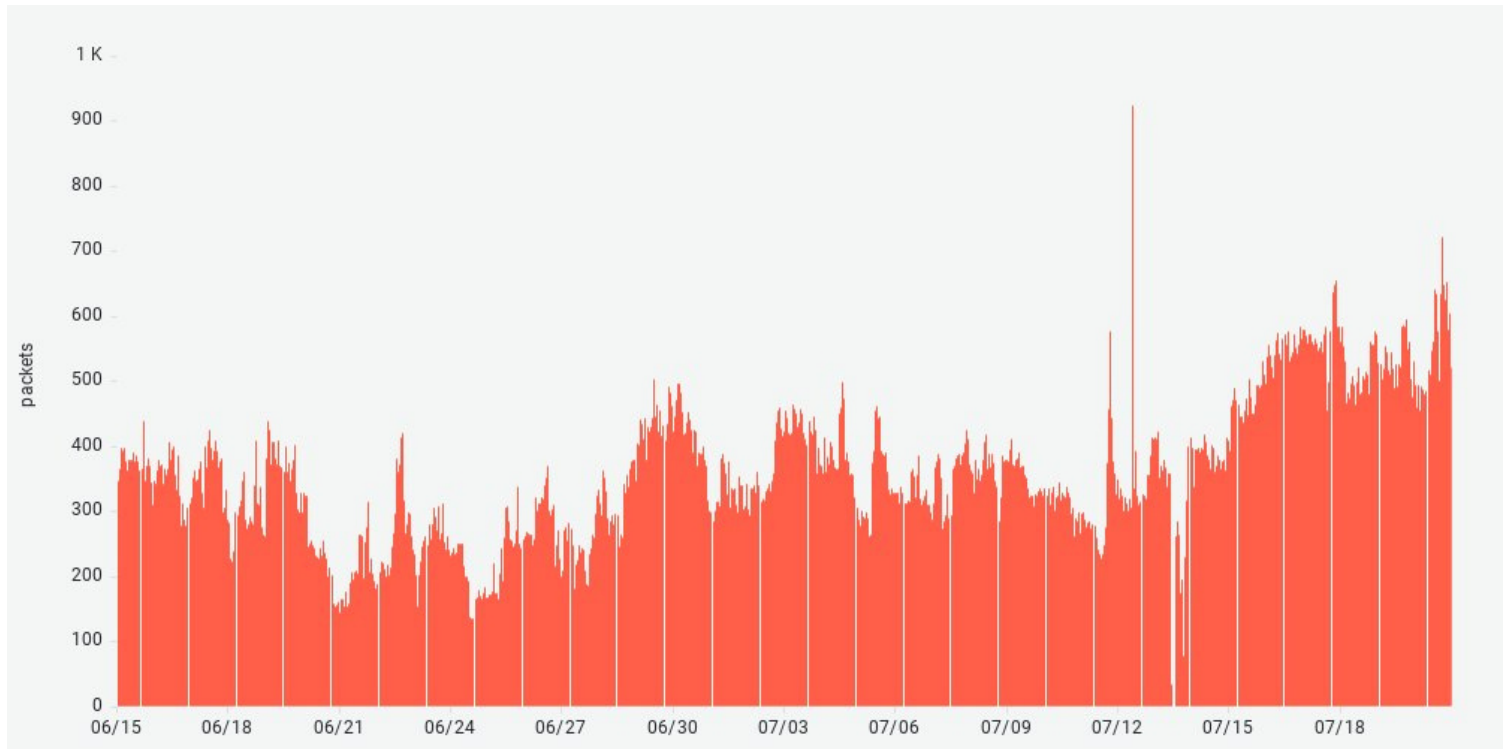

The latest version of the Nym wallet 1.0.7 is released. If you haven't already done so, don't forget to update your version.

METRICS

Below are our various metrics for the period June 15 to July 20, 2022. For this period, we received approximately 73.058 million packets to process on our two mixnodes.

Nearly 55.384 million packages on the NTV1 mixnode

And nearly 17.674 million packets on the NTV2 mixnode

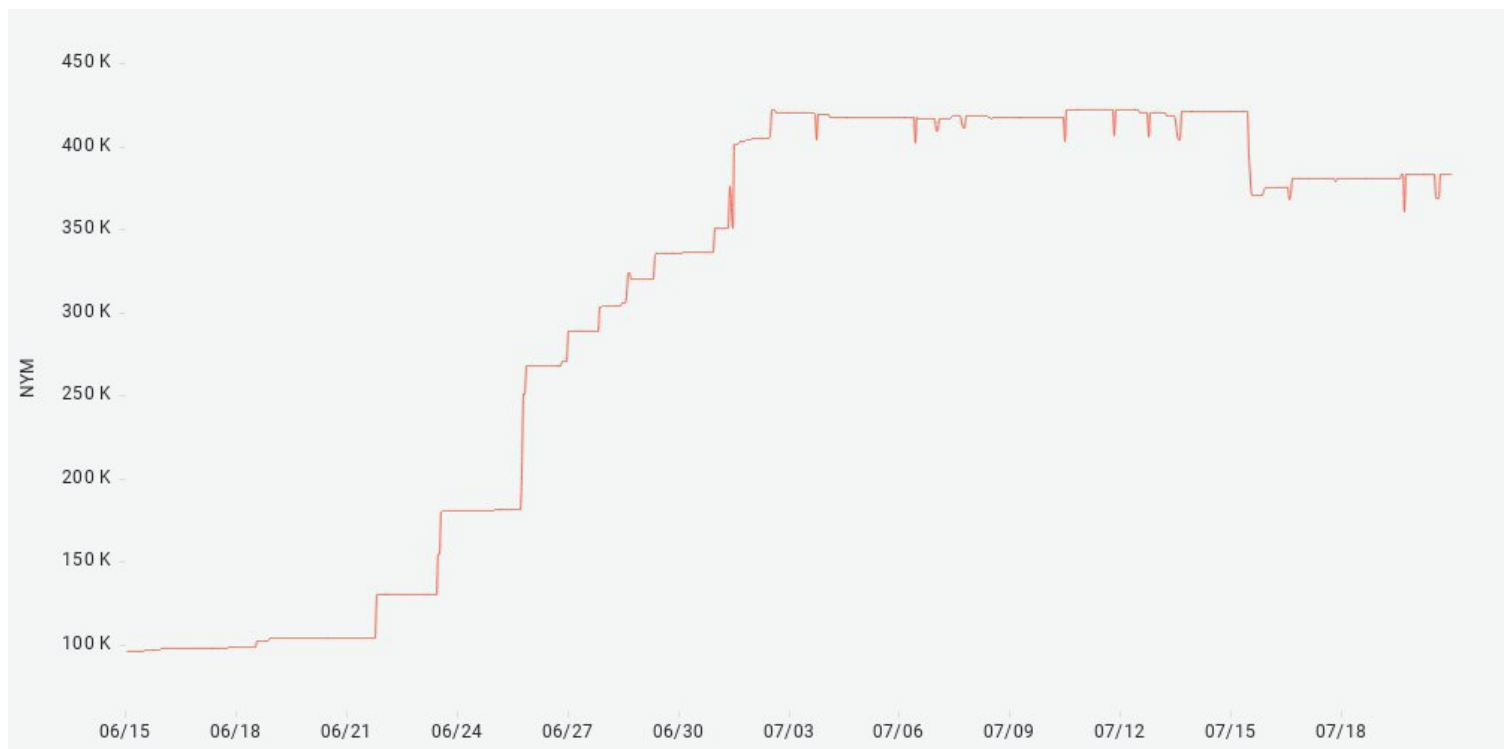

METRICS

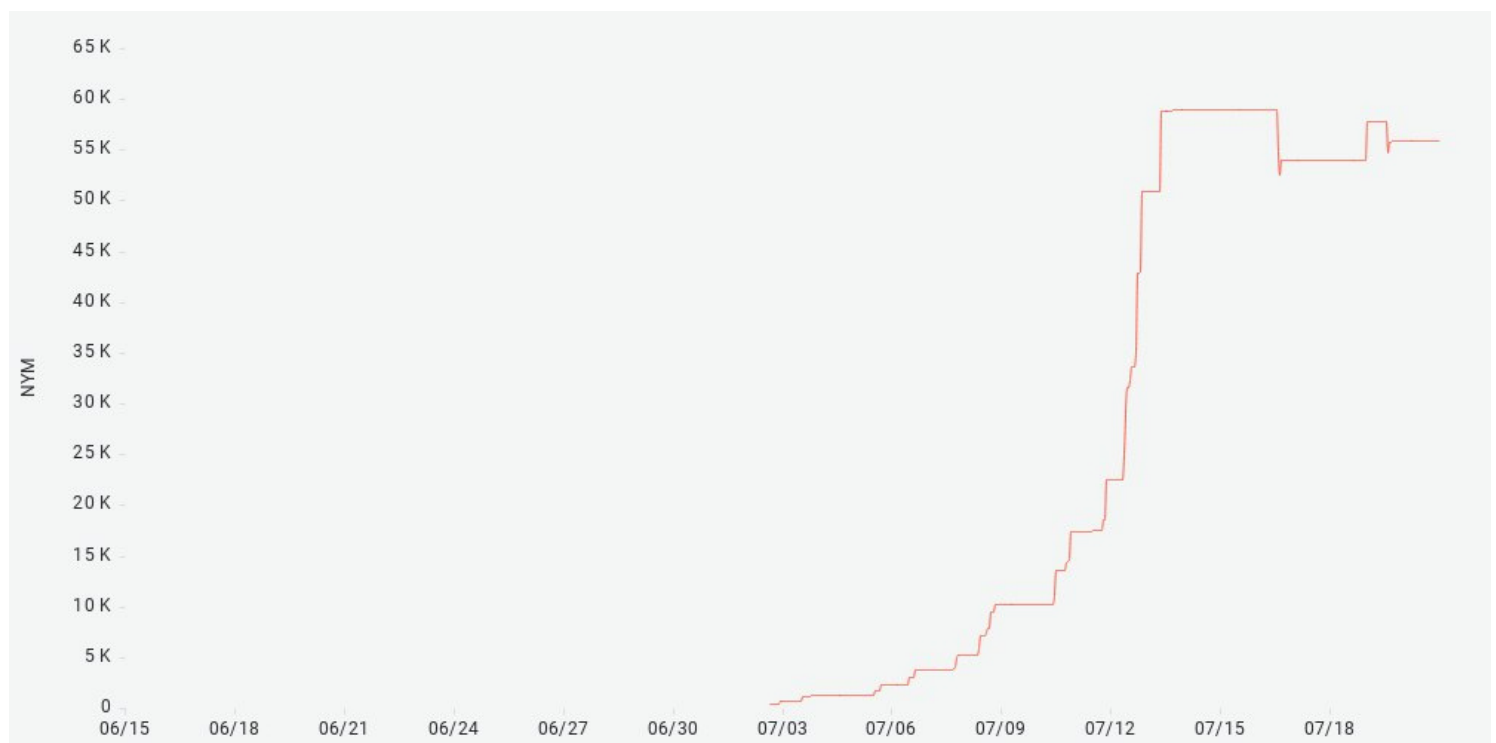

You will find below our different measures for the period from June 15 to July 20, 2022 concerning the delegations made on our mixnodes.

Disclaimer: There is currently a bug in the smart contract on the explorer of Nym affecting all operators of mixnodes. The figures presented below, after the correction of this one could change.

NTV1

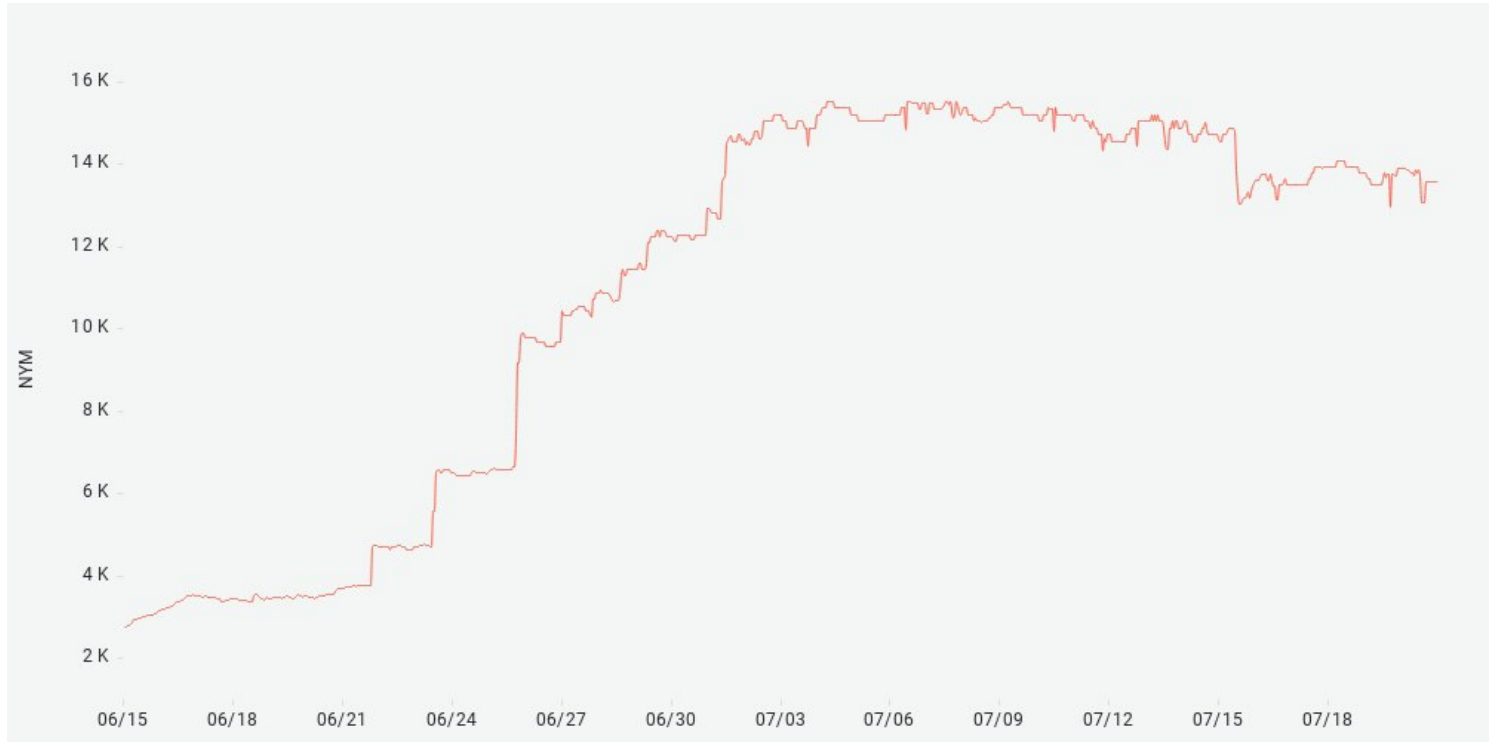

NTV2

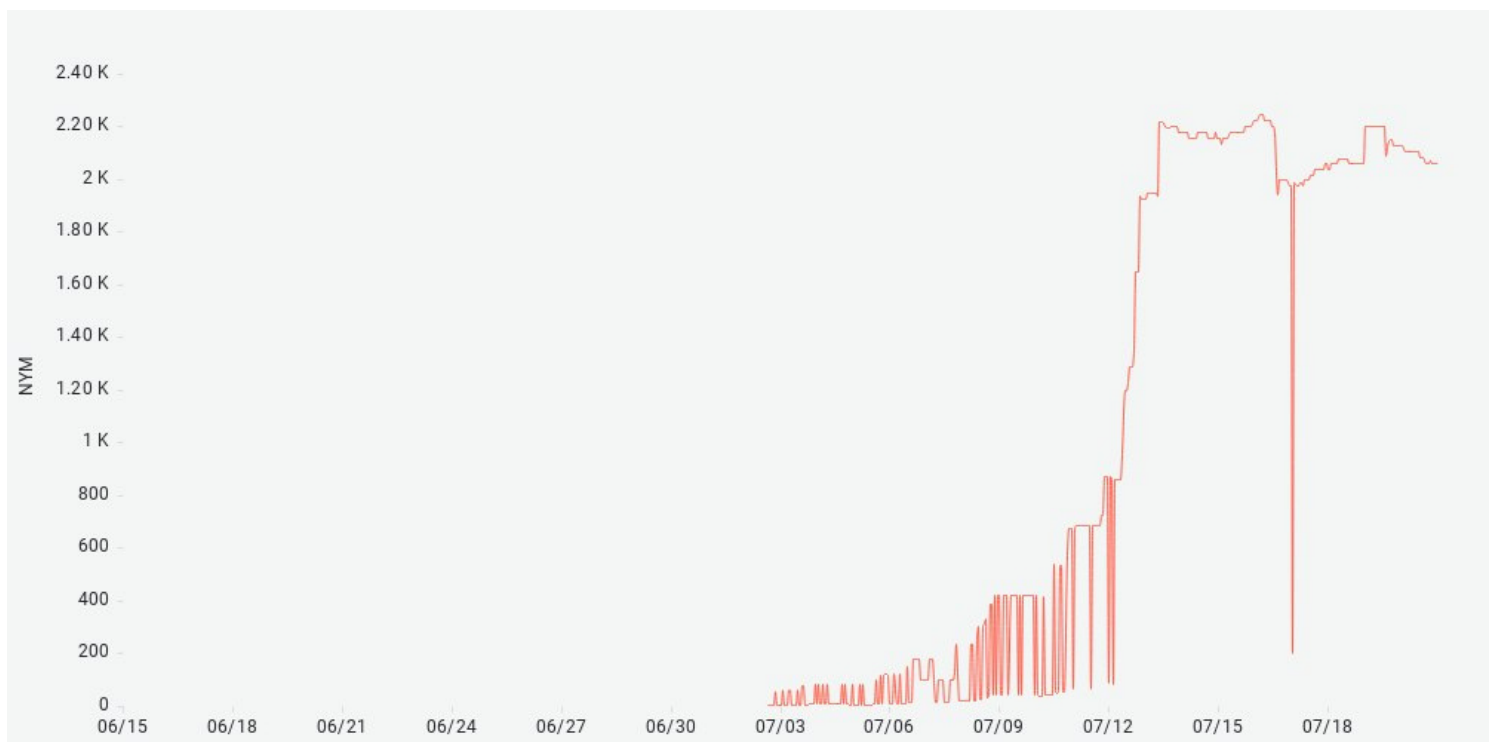

METRICS

Below are the statistics for Estimated delegator rewards 30 days for NTV1 & NTV2. At this point, our average APY is between 43-45%.

NTV1

NTV2

METRICS

At the gateway level, for the moment the traffic on the mixnet is decreasing. To date, the gateways are still not incentivized, so it is not possible to delegate on them.
