MONTHLY REPORT #16

SEPTEMBER 2023

NOTRUSTVERIFY.CH

Here is a summary of the work done by No Trust Verify since our last report

26 SEPTEMBER

Following some recent changes at Nym, some of you have noticed pastenym.ch is no longer working properly for now. It's been a difficult decision to be made but we decided to suspend the service as well as the development of pastenym project till further notice.

We remain in touch with Nym Team regarding recent changes and further development of the mixnet. We will monitor the development of the mixnet and be back to pastenym anytime soon.

This decision only related to projects we develop on Nym and doesn't affect any of mixnodes operated by No Trust Verify.

27 SEPTEMBER

We have recently released an article that delves into the world of DAOs, exploring their relationship with privacy. Additionally, we provide insights on interarct with DAO infrastructure projects while safeguarding your personal information, all thanks NymConnect.

You can find our article here: https://medium.com/notrustverify/access-interact-with-a-dao-through-nymconnect-1bb11264769b

Our activities on Alephium ecosystem

BLOCKFLOW ALLIANCE DAO

Cgi-bin and Oheka are among the founders of Alephium's first community DAO, known as the BlockFlow Alliance DAO. This community DAO is poised to implement a wide range of impactful actions, from improving training and onboarding to expanding marketing initiatives, launching standalone listing initiatives and facilitating the seamless integration of external portfolios.

For more details, please visit: https://medium.com/@alephium/welcome-blockflow-alliance-dao-cd74a949f98b

WALPH

We are thrilled to announce the successful deployment of our inaugural dApp "walph.io" on the Alephium mainnet.

In conjunction with Alephium's "Builders Highlight" article series, we conducted an interview to offer insights into our project, our perspectives, and the rationale behind our selection of Alephium as our blockchain platform of choice.

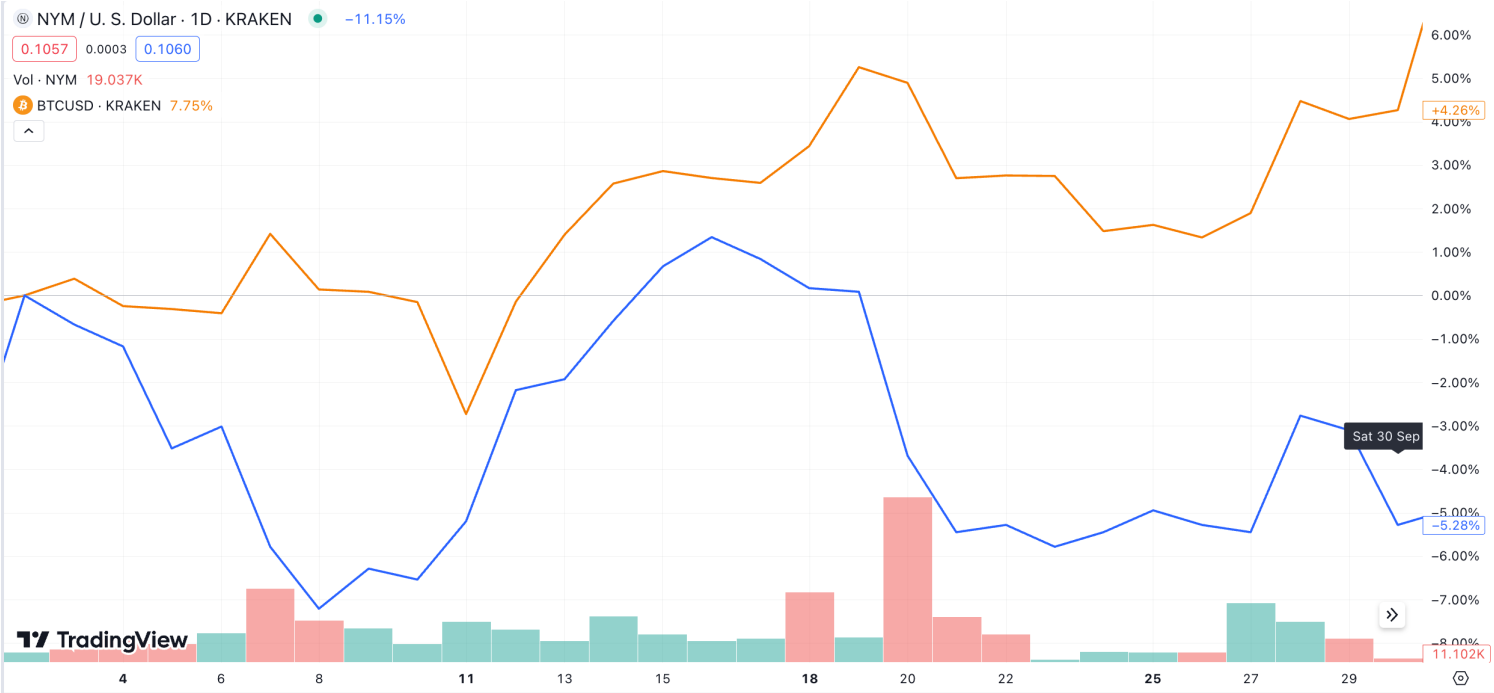
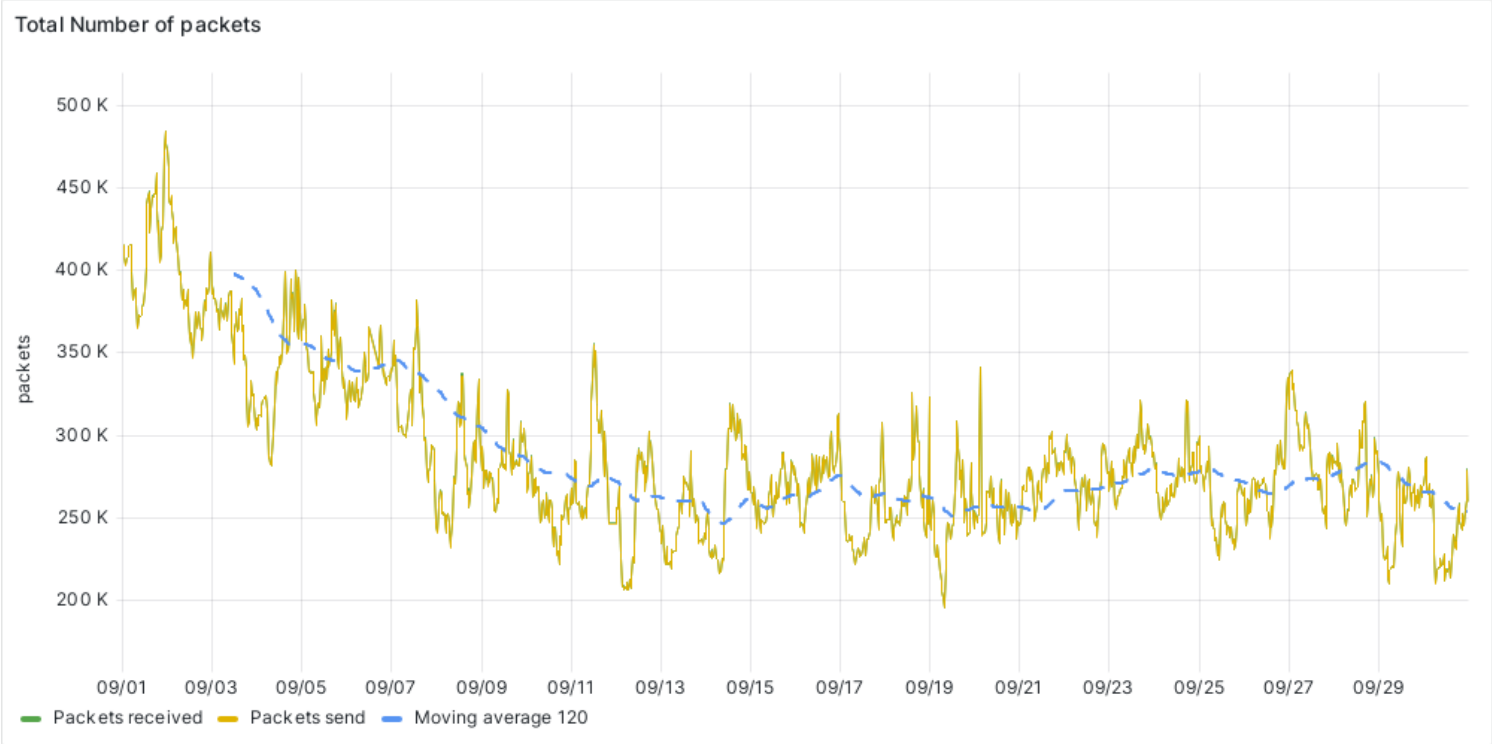
NYM METRICS

From now on, you will find in our monthly report some important metrics of the NYM network.

To begin with, here is an evolution of the price of $NYM with a comparison to BTC , over the month of September.

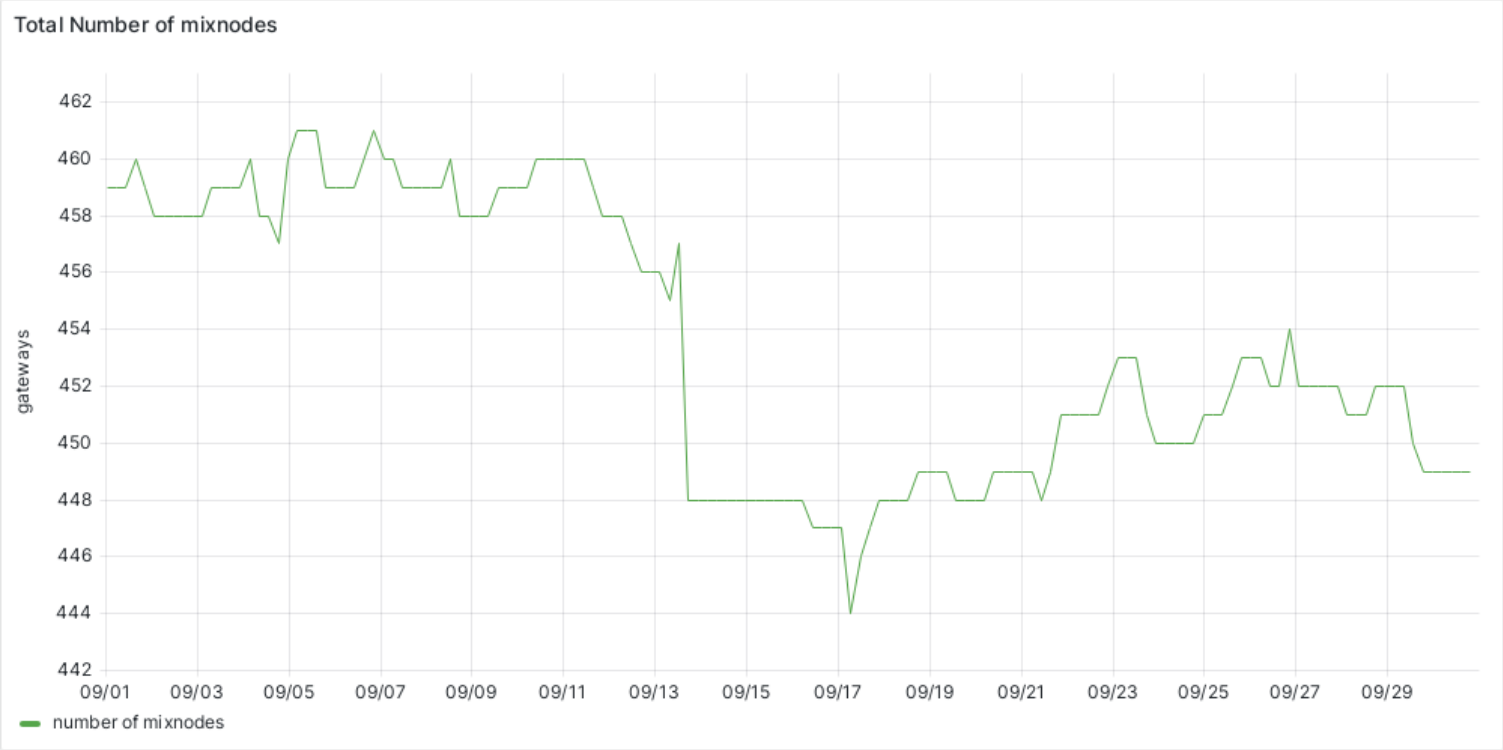


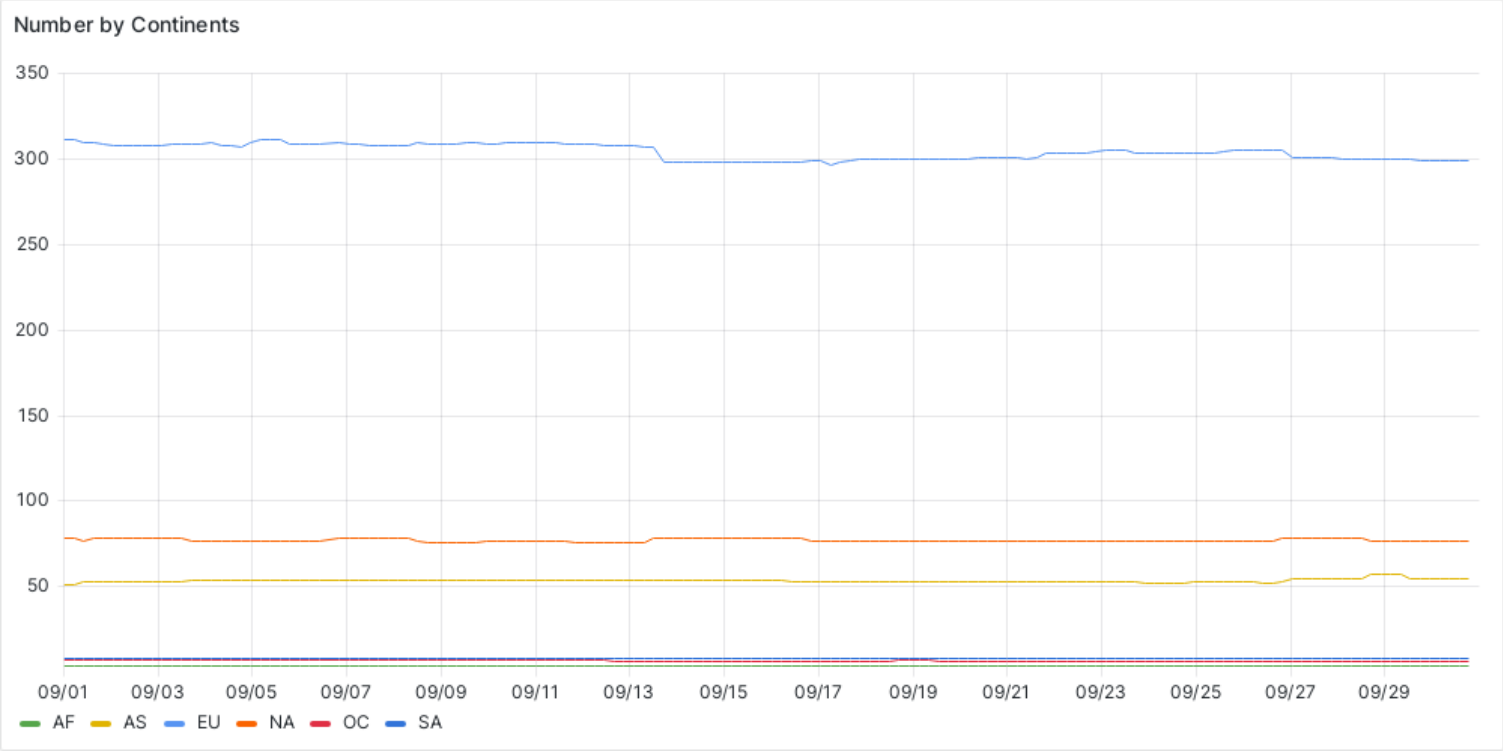
Evolution of packet processing for the entire mixnet.



NYM METRICS

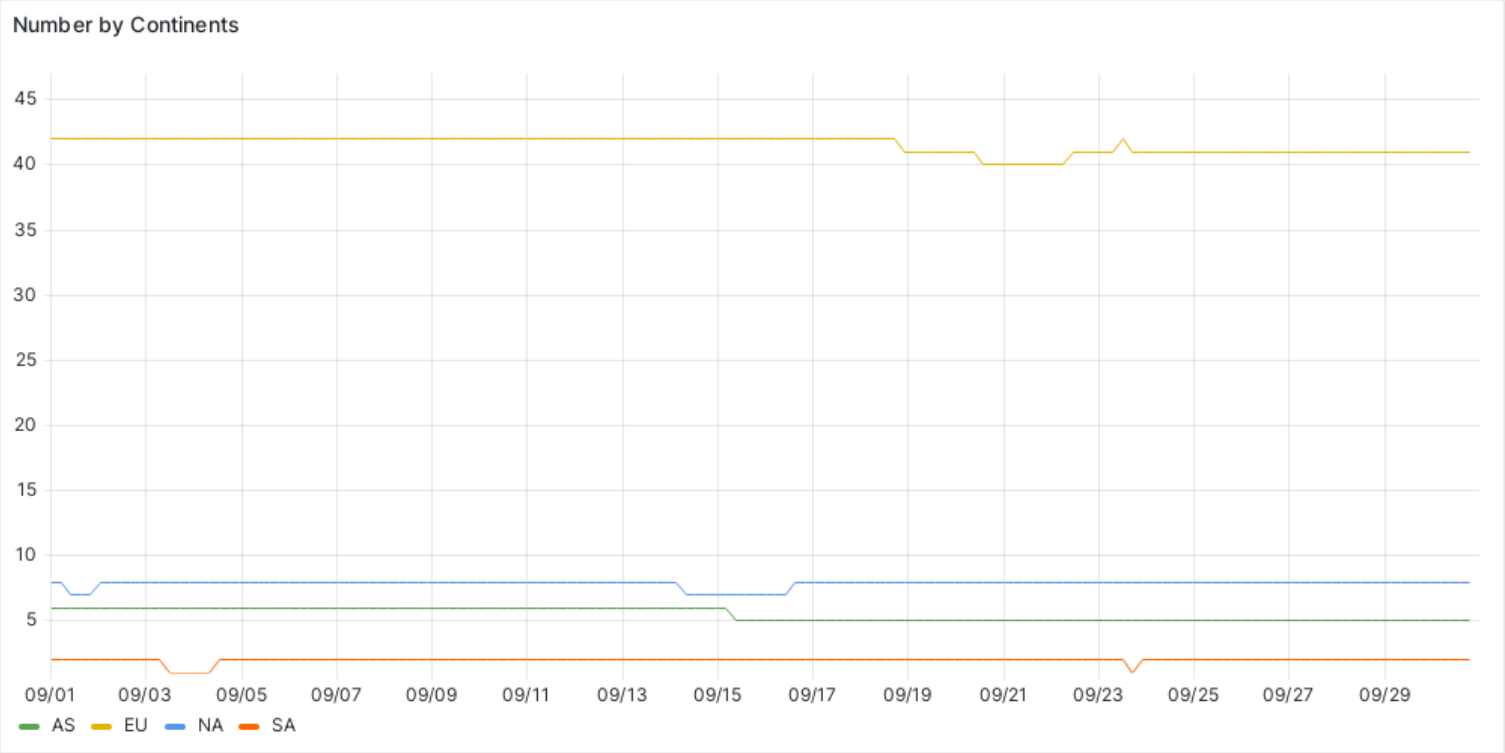
We will now look at the evolution of the **mixnodes** metrics in terms of their number and geographical distributions.





NYM METRICS

This section will describe the evolution of the **gateways** metrics in terms of their number and geographical distributions.



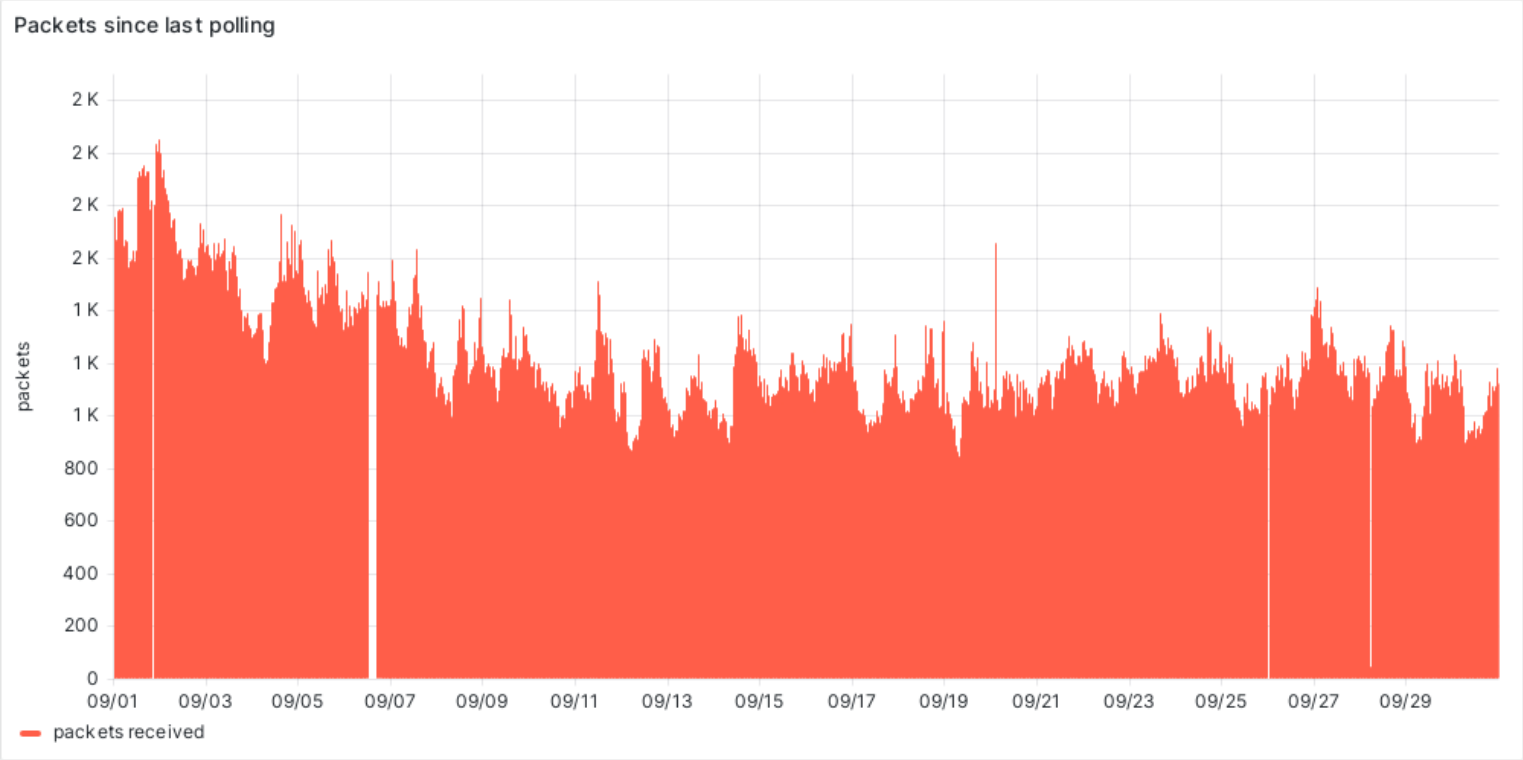
For more details about the metrics related to the Nym Mixnet, do not hesitate to consult our grafana:

https://status.notrustverify.ch/grafana/d/CW3L7dVVk/nym-mixnet?orgId=1

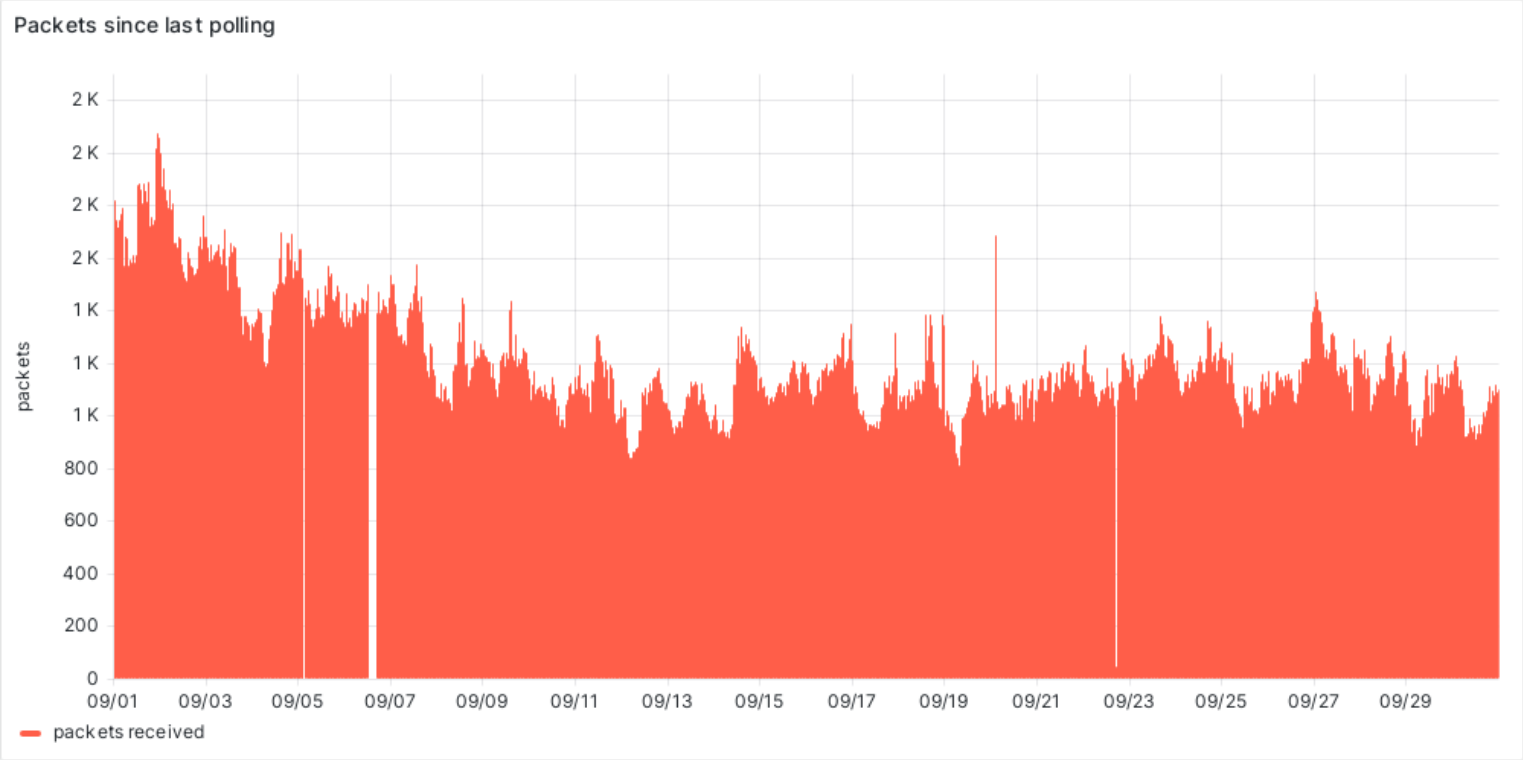
NTV METRICS

Let's go to the metrics related to No Trust Verify, you will find on this page the evolution of the packets processed by our public mixnodes during the month of September.

NTV1 mixnode (APxUbCmGp4K9qDzvwVADJFNu8S3JV1AJBw7q6bS5KN9E)

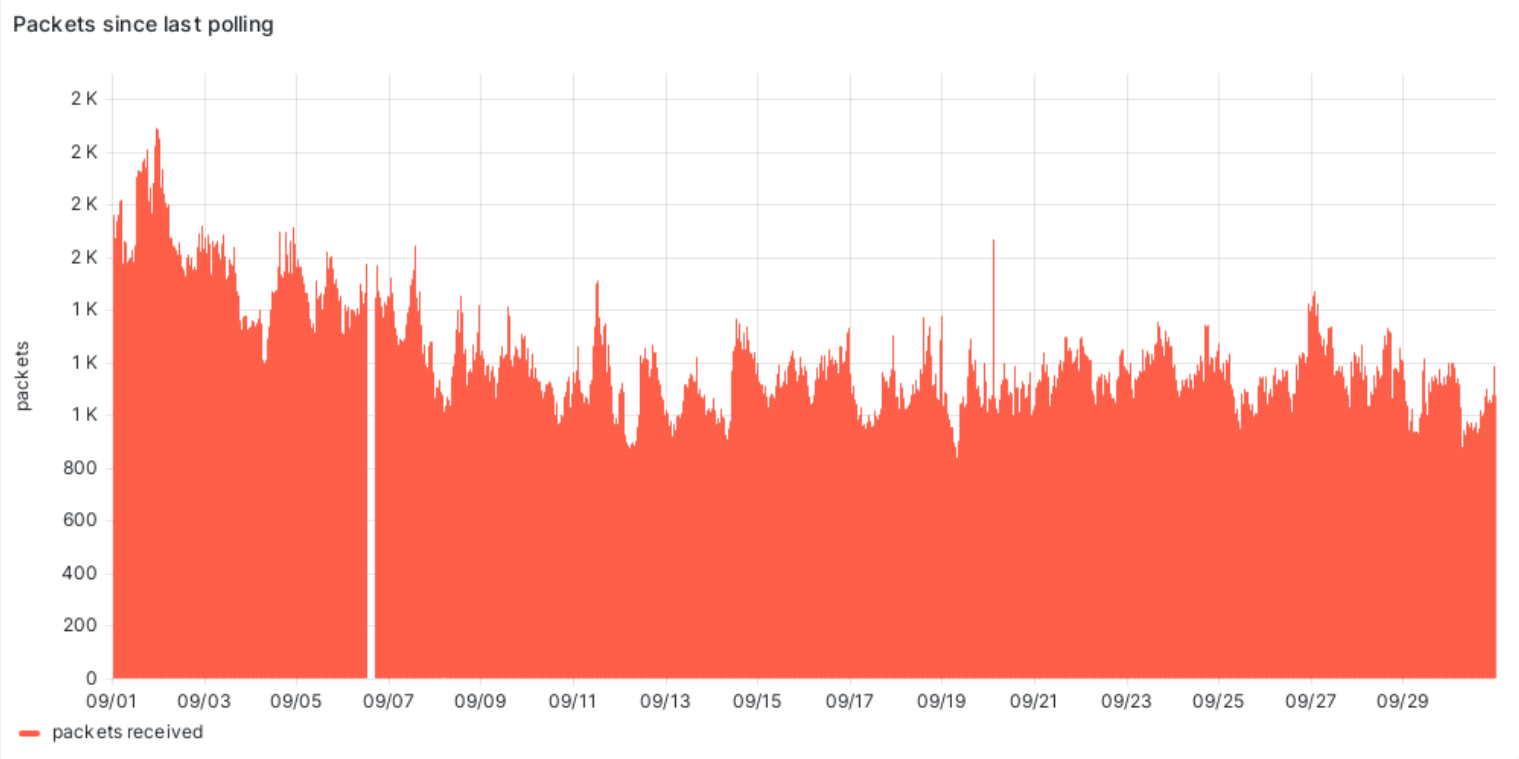


NTV2 mixnode (4yRfauFzZnejJhG2FACTVQ7UnYEcFUYw3HzXrmuwLMaR)

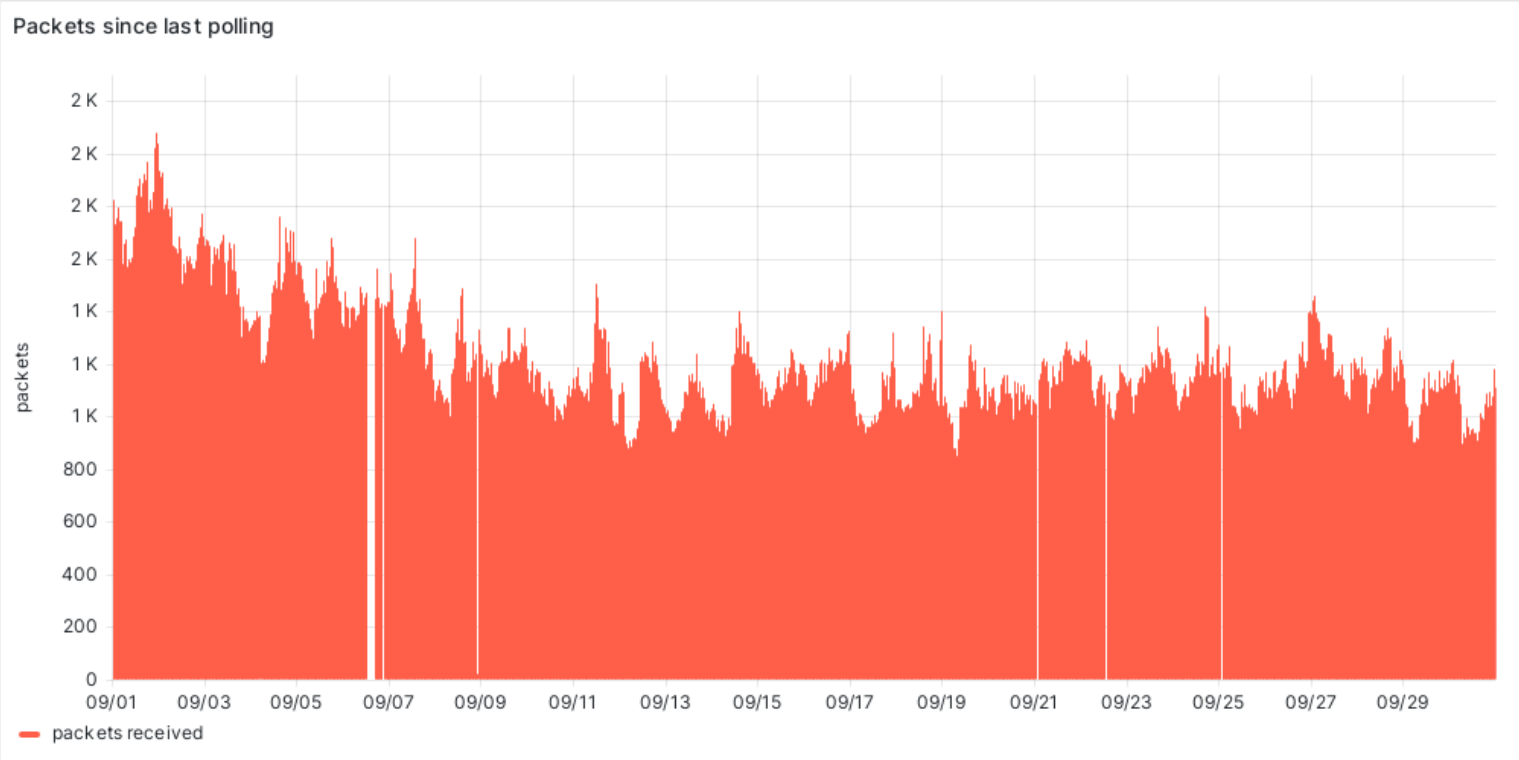


NTV METRICS

NTV3 mixnode (ESPa5xnwZ7BebSX9SGmUbeYgNtkUeJo8PtbBx7JhzEHA)

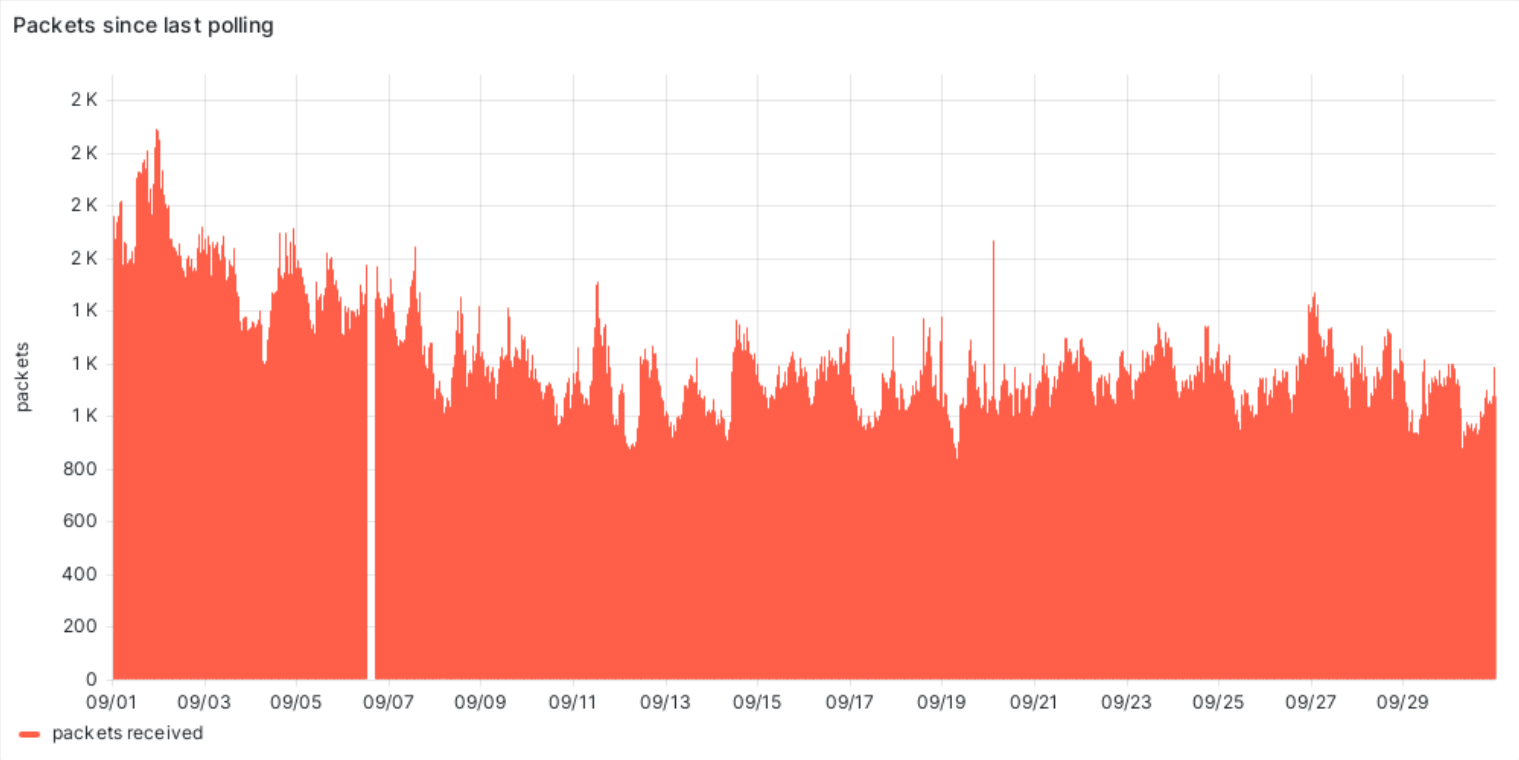


NTV5 mixnode (A6k1q6EPptrGEFnziKkma2pP5r2JW2yp6C7voCWWc1kn)



NTV METRICS

NTV7 mixnode (FT5EP4BNcgbQEspc9MLxZibArguJkpKnXWDUgQJUdkUN)



NTV METRICS

We then find, for the same period, the evolution of delegations made on our public mixnodes. With the actual stake saturation, the APY rate is now on average 16.81%.

NTV1 mixnode (APxUbCmGp4K9qDzvwVADJFNu8S3JV1AJBw7q6bS5KN9E)
