MONTHLY REPORT #4

FROM AUGUST 15 TO SEPTEMBER 20, 2022

NYM.NOTRUSTVERIFY.CH

Here is a summary of the different work done by No Trust Verify.

22 AUGUST

We have put our rewards calculator online on our website : https://nym.notrustverify.ch/calculator

We have also implemented a new bot in the telegram group: @notrustverifyBot allows you to quickly know our mixnodes and their "identity key" with the command /m.

22 AUGUST

Publication of our third activity report.

25-27 AUGUST

SURFIN'BITCOIN 2022 event

27 AUGUST

Opening of our new mixnode NTV3

08 SEPTEMBER

A gateway has been set up, in collaboration with Nym on the Asian continent to allow this region of the world to easily access the mixnet and NymConnect in order to protect their privacy

09 SEPTEMBER

Publication of our article in Chinese presenting Nym & Staking Guide. Chinese translation of our site TOR version.

11 SEPTEMBER   We expose the nym-socks5 to the Internet for making easier to test the mixnet on the mobile

19 SEPTEMBER   Setting up of the site https://isnymup.com

What's isnymup.com

We have set up https://isnymup.com to find out the status of the mixnet and how long it has been running

In the future, other features will be available, such as the possibility to know if the nym-client can route traffic and the global status of the gateways.

Currently the page is in its infancy and is not optimized at all.

We are looking for a person interested in developing a more pleasant (pro-bono) frontend.

The latest version of the Nym wallet 1.0.9 is released. If you haven't already done so, don't forget to update your version.

METRICS

Below are our various metrics for the period August 15 to September 20, 2022. For this period, we received approximately **310.364 million packets** to process on our two mixnodes.
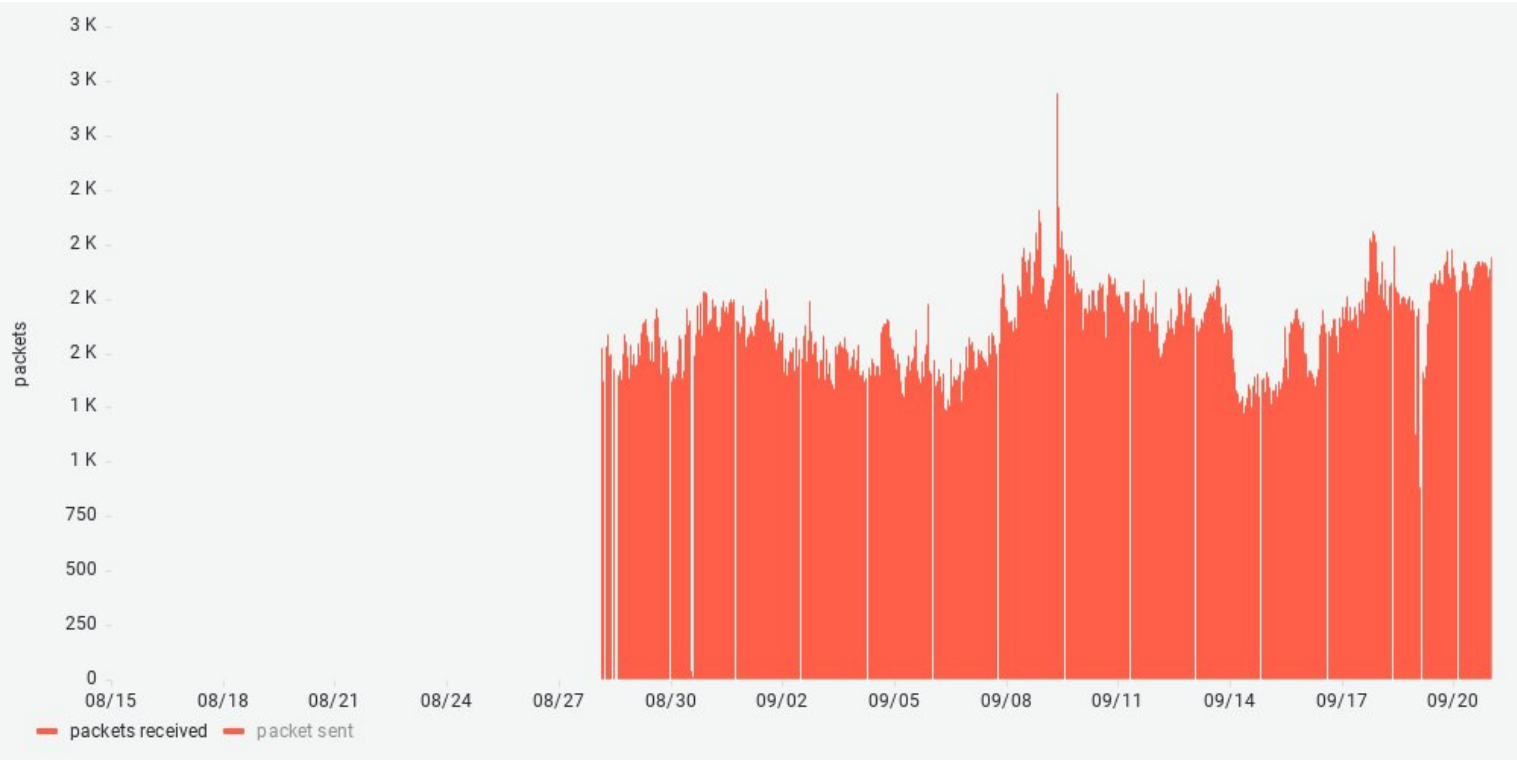

Nearly 102.498 millions packages on the NTV1 mixnode

And nearly 155.193 millions packets on the NTV2 mixnode

Nearly 52.223 millions packages on the NTV3 mixnode

You will find below our different measures for the period from August 15 to September 20, 2022 concerning the delegations made on our mixnodes. The daily variations are due to people who undelegate & delegate to claim their rewards or migrate to our other mixnodes
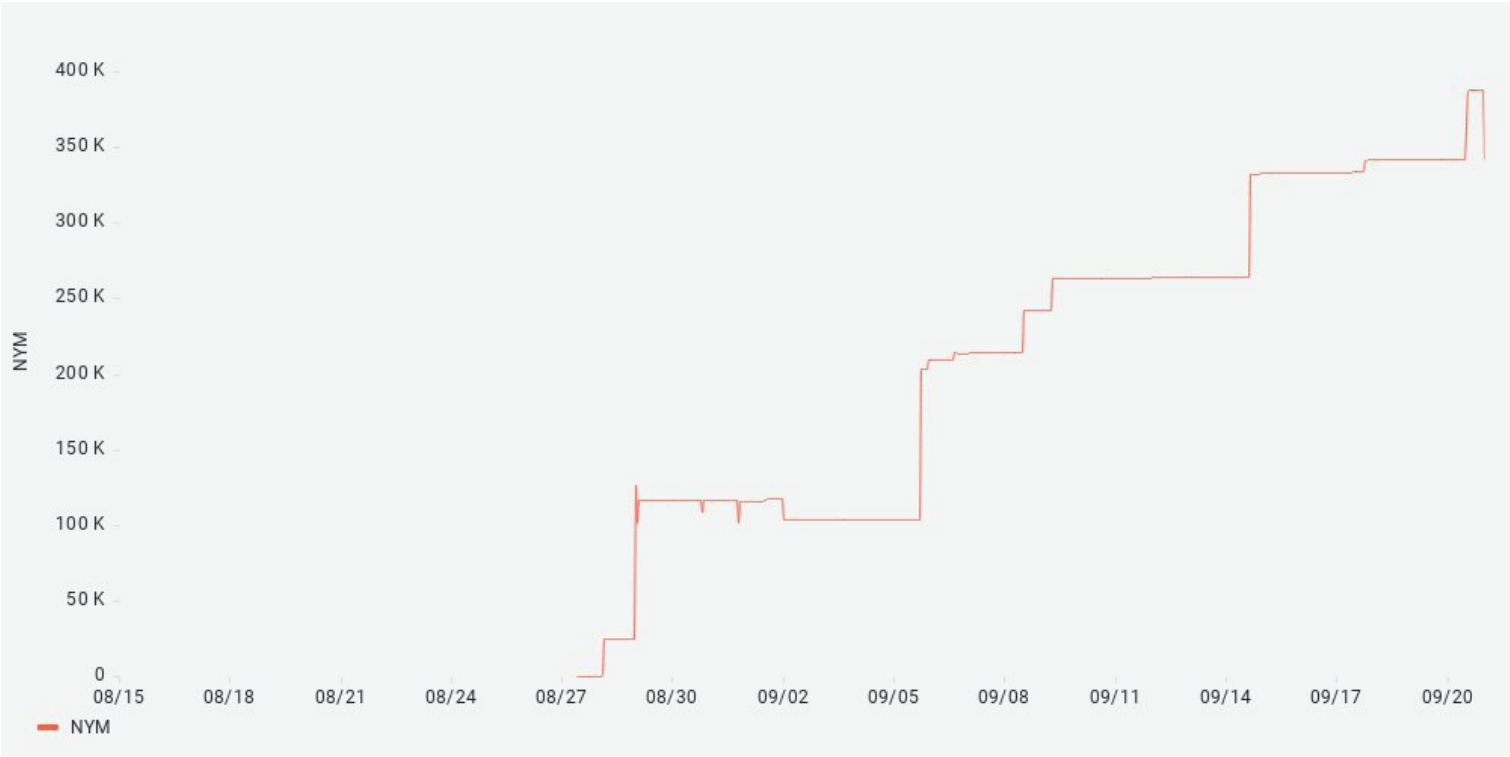

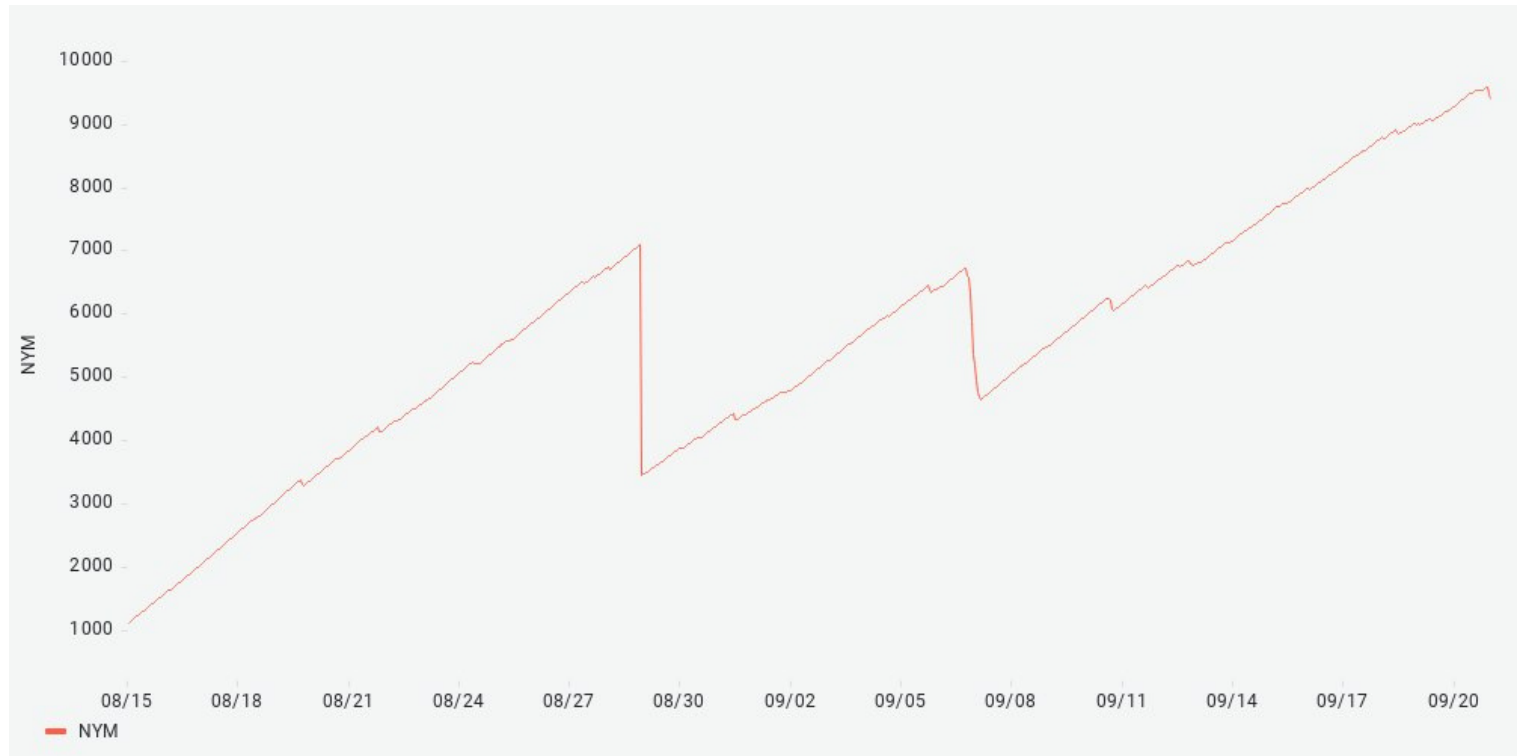

NTV1

NTV2

NTV3

Disclaimer: Nym recently identified and fixed a bug in their Smart Contract. Still, we observed side effects affecting delegated totals on some mixnodes. Once fixed, we can anticipate some variation to figures below.

METRICS

Below are the statistics for **Estimated delegator rewards days** for NTV1 & NTV2. At this point, our average APY is between 43-44%.
